**INVESTORS REAL ESTATE TRUST ANNOUNCES RESULTS FOR THE THREE AND TWELVE MONTHS ENDED APRIL 30, 2005**

*Minot, ND* Investors Real Estate Trust reported the following results today:

	(unaudited; in thousands, except per share amounts)			
	For the three months ended April 30,		For the twelve months ended April 30,	
	2005	2004	2005	2004
Revenues	\$ 39,326	\$ 34,903	\$ 156,447	\$ 133,596
Net Income	\$ 2,417	\$ 1,416	\$ 15,076	\$ 9,440
Net Income available to common shareholders	\$ 1,824	\$ 1,383	\$ 12,704	\$ 9,407
Net Income Per Share Basic and Diluted	\$ .04	\$ .03	\$ .30	\$ .24
Funds from Operations ("FFO")	\$ 10,943	\$ 9,090	\$ 42,314	\$ 36,638
FFO Per Share Diluted	\$ .19	\$ .17	\$ .76	\$ .73

Total revenues for the three months ended April 30, 2005, were \$39.3 million, compared to \$34.9 million for the same period in 2004, a 12.6% increase. Total revenues were \$156.4 million and \$133.6 million for the twelve months ended April 30, 2005 and 2004, respectively, a 17.1% increase. The increase in revenue for the twelve months ended April 30, 2005, was due primarily to rent from properties acquired during fiscal year 2005, and to increases in rent from properties acquired in fiscal year 2004 in excess of that received in fiscal year 2004 from the same properties. This increase in revenue was partially offset by a decrease in rental income on existing properties, net of declining occupancy levels.

---

Net income available to common shareholders for the three months ended April 30, 2005, was \$1.8 million, compared to \$1.4 million for the same period in 2004, a 28.6% increase. Net income available to common shareholders was \$12.7 million and \$9.4 million for the twelve months ended April 30, 2005 and 2004, respectively, a 35.1% increase. The increase in net income available to common shareholders for the twelve months ended April 30, 2005, was due primarily to gains from the sale of real estate, and to increases in rental income, net of expenses, from property acquisitions in fiscal years 2005 and 2004.

Net income per fully diluted share for the three months ended April 30, 2005, was \$.04, compared to \$.03 for the same period in 2004, a 33.4% increase. Net Income per fully diluted share was \$.30 and \$.24 for the twelve months ended April 30, 2005 and 2004, respectively, a 25.0% increase. The year-to-date increase in net income per share was due to the factors discussed above affecting net income available to common shareholders.

Funds from Operations (“FFO”), a non-GAAP financial measure, was \$10.9 million for the three months ended April 30, 2005, compared to \$9.1 million for the same period in 2004, a 19.8% increase. FFO was \$42.3 million and \$36.6 million for the twelve months ended April 30, 2005 and 2004, respectively, a 15.6% increase. FFO per fully diluted share, a non-GAAP financial measure, for the three months ended April 30, 2005, was \$.19, representing a 11.8% increase from FFO per fully diluted share of \$.17 for the three months ended April 30, 2004. FFO per fully diluted share for the twelve months ended April 30, 2005, was \$.76, representing a 4.1% increase over FFO per fully diluted share of \$.73 for the twelve months ended April 30, 2004. FFO and FFO per share for both the three and twelve months ended April 30, 2005, was impacted by the factors mentioned above affecting net income available to common shareholders, excluding the gain on sale of real estate and the increase in depreciation expense.

A reconciliation of net income to FFO is provided in the condensed consolidated statement of operations information below.

Thomas A. Wentz, Sr., President and Chief Executive Officer, stated, “economic conditions in our core markets appear to be improving, which should translate into decreasing vacancy rates and increased rental revenues in our current fiscal year. For example, we recently leased a 75,815 square foot office building in Rapid City, South Dakota, which had been vacant for more than two years, to General Electric Capital Corporation, under a six-year lease commencing June 1, 2005. We plan to continue to focus on reducing vacancy levels and improving operations at our properties, and we will continue to pursue the acquisition of quality multi-family residential, office, medical, industrial and retail properties.”

**Company Information:** IRET is a self-advised equity real estate investment trust engaged in owning and operating income-producing properties located primarily in the upper Midwest. IRET owns a diversified portfolio of 211 properties, consisting of 65 multi-family residential properties, 50 office properties, 11 industrial properties (including miscellaneous commercial properties), 60 retail properties and 25 medical properties (including assisted living facilities).

IRET's cash distributions to common shareholders/unitholders during fiscal year 2005 increased to 64.5 cents per share/unit, compared to 63.7 cents paid in the prior fiscal year, an increase of 1.26%. In each of the last 34 calendar years, the annual distribution has increased over the amount paid in the preceding year.

Annual Meeting of Shareholders: IRET's 35<sup>th</sup> Annual Meeting of Shareholders will be held on Tuesday, September 20, 2005, at 7:00 p.m. CST at the International Inn, 1505 North Broadway, Minot, North Dakota.

A full description and discussion of IRET's results of operations for fiscal year 2005 will be contained in IRET's Annual Report on Form 10-K, which will be filed with the Securities and Exchange Commission no later than July 14, 2005, and mailed to shareholders in August. IRET's press releases are available on the company website at [www.iret.com](http://www.iret.com) or by contacting Investor Relations at 701-837-4738.

1. The National Association of Real Estate Investment Trusts (“NAREIT”) defines FFO as net income (computed in accordance with generally accepted accounting principles) excluding gains (or losses) from sales of property plus real estate depreciation and amortization. IRET management considers that FFO is a useful supplemental measure for equity real estate investment trusts. Historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation, that the value of real estate assets decreases predictably over time. However, real estate asset values have historically risen or fallen with market conditions. FFO, by excluding depreciation costs, reflects the fact that real estate, as an asset class, generally appreciates over time and that depreciation charges required by GAAP may not reflect underlying economic realities. FFO is used by investors to compare the performance of real estate investment trusts. However, while FFO is widely used by real estate investment trusts as a performance metric, not all real estate companies use the same definition of FFO or calculate FFO in the same way. Accordingly, FFO presented here is not necessarily comparable to FFO presented by other real estate companies.

**Fiscal 2005 Acquisition and Disposition Summary****Property Acquisitions**

IRET Properties added \$146.4 million of real estate investments to its portfolio during fiscal year 2005, compared to \$170.3 million added in fiscal 2004. The fiscal year 2005 additions are detailed below.
