FOR IMMEDIATE RELEASE

**Walter Hewlett Responds to  
Letter From Hewlett-Packard Directors**

Palo Alto, CA, January 7, 2002 Walter B. Hewlett today issued the following statement in response to a letter from his fellow Hewlett-Packard Company (NYSE: HWP) directors:

The Board's letter is a careful construct of fine lines and half truths. By words or silence, the Board confirms that:

despite my known opposition to the transaction, management and its representatives negotiated a contract that required unanimous Board approval;

I was advised by company counsel that this transaction would be approved with or without my Board vote, and that I could approve it as a director and still vote against it as a stockholder; and

on September 3, 2001, during the Board telephone call to approve the proposed merger, I informed the Board that if the vote were to occur on that day, I would vote against the proposed merger as a stockholder.

Nothing in the Board's letter will distract Hewlett-Packard stockholders from focusing on the real issue, nor change this bad transaction into a good one. This transaction remains fundamentally flawed because:

the proposed merger would significantly dilute Hewlett-Packard's stockholders' interest in the profitable imaging and printing business, and significantly increase their exposure to an unprofitable PC business;

the proposed merger would: (i) dramatically increase Hewlett-Packard's market position in unattractive lower-end, commodity businesses, such as PCs; (ii) not materially improve Hewlett-Packard's market position in mid-range and high-end servers and high-end services, which have higher profit margins than the profit margins for PCs; (iii) divert management's attention and financial resources from Hewlett-Packard's preeminent imaging and printing business; and (iv) do little to increase Hewlett-Packard's consulting and outsourcing capabilities;

the integration risk of the combination is substantial. No significant combination involving a computer company has ever met expectations; and

the proposed transaction is financially unattractive to Hewlett-Packard stockholders. The market has twice made resoundingly clear that this combination destroys value for Hewlett-Packard stockholders.

This transaction is clearly bad for stockholder value and I urge the Board to listen to what stockholders are saying.
