Sidebar text: "WE THINK THAT MUNICIPAL BOND INVESTMENTS LIKE YOUR NUVEEN FUND CAN BE IMPORTANT BUILDING BLOCKS IN A PORTFOLIO DESIGNED TO PERFORM WELL THROUGH A VARIETY OF MARKET CONDITIONS."

Dear
SHAREHOLDER

I am very pleased to report that for the period ended December 31, 2003, your Nuveen Fund continued to provide you with attractive monthly tax-free income. Your Fund is managed with a value investing strategy that puts an emphasis on finding securities that we think are undervalued or underrated. We believe there are always some municipal bonds that the market is not properly valuing, and that by using a consistent, research-oriented management approach we have the opportunity to find them for your Fund.

In the current environment, many have begun to wonder whether interest rates will soon start to rise, and whether that possibility should cause them to adjust their holdings of fixed-income investments. We believe that by constructing a carefully balanced portfolio with the help of a trusted investment professional you may be able to reduce your overall investment risk and give yourself a better chance to meet your financial goals. We think that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio designed to perform well through a variety of market conditions.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

management responsibility for these New Jersey and Pennsylvania Funds in January 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE 12-MONTHS ENDED DECEMBER 31, 2003?

Over the past 12 months, the two greatest influences on the general economy and the municipal market continued to be historically low interest rates and the overall pace of economic improvement. Since its last credit easing in June 2003, the Federal Reserve has maintained the fed funds rate at 1.0%, the lowest level since 1958. This accommodative monetary policy, coupled with Washington's tax relief measures and increased spending for defense and national security, helped to fuel a jump of 8.2% (annualized) in the third-quarter gross domestic product (GDP), up from 3.3% in the second quarter. Throughout 2003, inflation remained under control, with the 1.1% annual change in the core rate representing the slowest pace in more than 40 years. The recovering economy also generated some improvement in the labor markets, although progress remained halting, making 2003 only the second non-recession year on record in which the economy posted a net loss of jobs.

In combination, the pace of recovery over the majority of this reporting period, low interest rates, and lack of inflationary pressures helped many municipal bonds perform well. During the summer of 2003, however, stronger-than-expected economic data precipitated a spike in bond yields and a corresponding drop in bond prices that impacted results across all fixed-income markets. Despite the increased volatility in June and July, the municipal market enjoyed generally solid performance during the 12-month period ended December 31, 2003.

In 2003, municipal supply nationally broke the record set just last year, with \$382.7 billion in new bonds, up 7% over 2002. However, the issuance of new paper slowed somewhat in the last half of the year, with national volume for July-December 2003 down \$13.7 billion, or 7%, from the preceding six months.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN NEW JERSEY AND PENNSYLVANIA?

Benefiting from the solid base provided by the state's diverse economy, central location, and high income levels, New Jersey's economy performed better than the nation as a whole in recent months. In addition to increased employment in the financial services and pharmaceutical industries, the state added jobs in construction, retail, education, and healthcare. Over the 12 months ended December 2003, unemployment in New Jersey fell from 6.0% to 5.3%, its lowest level in two years, compared with the current national average of 5.7%. This good news was offset to some degree by New Jersey's higher debt levels, which have risen 60% since 1996, and increased spending pressures at the state level, especially for Medicaid and pensions. On July 1, 2003, New Jersey approved a \$24.1 billion fiscal 2004 budget, eliminating the \$4 billion deficit through the use of higher cigarette, hotel, and casino taxes, reduced

2

property tax rebates, and additional borrowing against tobacco settlement proceeds. In 2003, New Jersey issued \$16.6 billion in new municipal debt, up 49% over 2002. As of December 2003, Moody's rated New Jersey's general obligation debt Aa2 with a negative outlook, while Standard & Poor's maintained its rating of AA with a stable outlook.

Led by strength in the services sector and a decrease in manufacturing job losses, Pennsylvania's diverse economy continued to improve over the past 12

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS/A

months. Despite its still-substantial exposure to declining old-line manufacturing industries, the commonwealth demonstrated modest economic expansion, including the creation of new jobs in pharmaceuticals, software, tourism, and business services. In December 2003, Pennsylvania's unemployment rate fell to 5.1%, its lowest level in 26 months, down from 6.1% a year earlier. Although conservative financial practices and low debt burdens helped the commonwealth weather the budget problems of the past few years, Pennsylvania's aging infrastructure has resulted in increasing budgetary pressures, and the commonwealth has undertaken aggressive development efforts in an attempt to spur growth. Pennsylvania's \$21.4 billion fiscal 2004 budget was balanced using measures including higher personal income and cigarette taxes. For the year, Pennsylvania issued \$15.3 billion of municipal debt, a 5% increase over 2002. Both Moody's and S&P reaffirmed the commonwealth's Aa2/AA general obligation rating and stable outlook in 2003. In October, however, the rating agencies moved to downgrade the credit rating of Pittsburgh, Pennsylvania's second largest city, to Baal/BB from A3/A- based on the city's continuing budget shortfalls.

For additional information, see the individual Performance Overview for your Fund in this report.

For the 12 months ended December 31, 2003, all eight of the Funds in this report outperformed the unleveraged Lehman Brothers Municipal Bond Index. The use of leverage was one of the factors that influenced the performance of the Nuveen Funds relative to the Lehman index over the past 12 months. While leveraging can add volatility, this strategy can also provide opportunities for additional income for common shareholders, especially during periods of low short-term interest rates. For municipal bond funds, as with any fixed-income investment, income is an important component of total return.

In addition to leverage, factors such as call exposure, portfolio trading activity, and the price movement of specific sectors and holdings also had an impact on the Funds' relative performances during this period. For example, NXJ and NUJ benefited from several advance refundings as well as higher allocations of airline-backed bonds, which rebounded strongly in the last part of 2003 due to the airline industry's cost and capacity reductions and restructuring.

- 1 The total annual returns on common share net asset value (NAV) for these Nuveen Funds are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of the four Nuveen New Jersey Funds are compared with the average annualized return of the 13 funds in the Lipper New Jersey Municipal Debt Funds category, while the total returns of the four Nuveen Pennsylvania Funds are compared with the average annualized return of the 12 funds in the Lipper Pennsylvania Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. With respect to investments that generate qualified dividend income taxable at a maximum rate of 15%, the taxable-equivalent yield is lower. The taxable-equivalent yield is calculated using the current yield and a federal income tax rate of 28% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: New Jersey 32.5% and Pennsylvania 30%. The yields shown highlight the added value of owning shares that are exempt from state as well as federal income taxes.

3

NQJ's and NNJ's performances were negatively affected by their relatively short average durations.⁴ Generally, in a falling interest rate environment such as the one we experienced over much of 2003, longer duration investments would be expected to perform better than shorter duration investments.

Among the Pennsylvania Funds, NPY, NXM, and NVY were helped by their holdings of several corporate-backed industrial development revenue (IDR) bonds that performed well over the past year. NQP's ability to gain the full benefit of these types of price increases was lessened to a degree by the need to invest called bond proceeds at today's generally lower rates.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels, the dividend-payment capabilities of these Funds benefited from their use of leverage. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. Low short-term rates can enable the Funds to reduce the amount of income paid to MuniPreferred shareholders, which can potentially leave more earnings to support common share dividends. During the 12 months ended December 2003, continued low short-term rates enabled us to implement three dividend increases in NQJ and NXJ, two in NXM, and one each in NNJ and NPY. Leverage also helped to support the dividend of NQP, which--as of December 31, 2003--had offered shareholders 43 consecutive months of stable, attractive dividends, while NUJ and NVY, which were introduced in March 2002, had provided 20 consecutive months of steady dividends.

Each Fund seeks to pay a stable dividend at a rate that reflects the Fund's past results and projected future performance. The Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If the Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value (NAV). Conversely, if the Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of December 31, 2003, all of the Funds in this report had positive UNII with the exception of NVY which had negative UNII.

Over the 12-month period ended December 31, 2003, the share prices and NAVs of all of these Funds performed well, ending the period higher than they had been at the beginning. As of December 31, 2003, NQJ, NNJ, and all four of the Pennsylvania Funds had moved to trading at premiums to their common share NAVs, while the discounts on NXJ and NUJ had narrowed (see charts on individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE 12-MONTHS ENDED DECEMBER 31, 2003?

For this 12-month reporting period, we continued to place strong emphasis on keeping the Funds fully invested and well diversified, improving call protection, and enhancing dividend-payment capabilities. A major focus continued to be the management of the Funds' durations as a way of mitigating interest rate risk and producing potentially more consistent returns over time. Interest rate risk is the risk that the value of a Fund's portfolio will decline when market interest rates rise (since bond prices move in the opposite direction of interest rates). The longer the duration of a Fund's portfolio, the greater its interest rate risk. In general, our efforts focused on moderating risk by shortening the durations of the four newer New Jersey and Pennsylvania Funds, while slightly extending the durations of the older Funds

4 Duration is a measure of a fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the fund. References to duration in this commentary are intended to indicate fund duration unless otherwise noted.

4

(with the exception of NQP) as we reinvested proceeds from bond calls. In the older NQP, we also worked to reduce the duration, which had lengthened considerably as the Fund moved through the period of heavier bond calls associated with its 10-year anniversary in 2001.

The majority of our purchase activity over the past year focused on value opportunities in the long intermediate part of the yield curve (i.e., bonds that mature in 15 to 20 years). In many cases, bonds in this part of the curve offered yields similar to those of longer-term bonds but had less inherent interest rate risk.

Although the heavy volume of municipal issuance during 2003 provided selected opportunities to make trades that would benefit the Funds, in recent months we have seen supply soften. This was especially true in New Jersey, where issuance during July-December 2003 declined 20% from the levels of the previous six months. However, it was equally challenging to find issues that would help

diversify the Funds and add value in the Pennsylvania market. Overall, therefore, the turnover level in all of these Funds was reasonably low. In general, as opportunities arose in the market, our focus was on purchasing higher quality issues, particularly in the essential services and general obligation categories, reflecting the increased issuance in these sectors. We also looked for purchase opportunities in the secondary market to enhance the Funds' diversification.

As of December 31, 2003, each of the New Jersey Funds held less than 5% of its portfolio in bonds backed by revenues from the 1998 master tobacco settlement agreement. In the earlier part of the 12-month period, the prices of these bonds weakened as the result of several high-profile events, including lawsuits involving the major tobacco companies. In August 2003, S&P downgraded the credit rating on New Jersey tobacco bonds to BBB from A-, which resulted in a slight increase in these Funds' allocations to the BBB credit quality category. Over the last four months of 2003, however, in the wake of legal developments more favorable to the tobacco companies, these bonds recovered quite well.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF DECEMBER 31, 2003?

We believe that, given the current geopolitical and economic climate, maintaining strong credit quality remains a vital requirement. As of December 31, 2003, these Nuveen Funds offered excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 64% to 90%. This represents a steady or growing allocation in the AAA/U.S. guaranteed category across all of the Funds over the 12 months.

Looking at bond calls, these Funds generally offer good levels of call protection over the next three years, with potential call exposure (as of December 31, 2003) ranging from 1% in NVY to 18% in NNJ during 2004-2006. In coming months, the number of actual bond calls in all of these Funds will depend largely on market interest rates.

In general, we believe that these Nuveen Funds can continue to serve as attractive sources of tax-free income, while simultaneously offering the potential for portfolio diversification. In our opinion, the Funds represent a quality component of a well-balanced core investment portfolio that can continue to benefit shareholders over time.

1 Taxable-equivalent yield represents the yield that must be earned on a fully

taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. With respect to investments that generate qualified dividend income that is taxable at a maximum rate of 15%, the taxable-equivalent yield is lower. The taxable-equivalent yield is calculated using the current market yield and a federal income tax rate of 28%. The rate shown for federal and state highlights the added value of owning shares that are also exempt from state income taxes. It is based on a combined federal and state income tax rate of 32.5%.

FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding

Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At December 31, 2003, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) had outstanding when-issued and/or delayed delivery purchase commitments of \$4,448,169, \$2,764,783, \$3,557,253 and \$3,736,243, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state, to retain such tax-exempt status when distributed to shareholders of the Funds.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of such distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended December 31, 2003.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR/A

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At December 31, 2003, the cost of investments were as follows:

	NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)	NEW JERSEY DIVIDEND ADVANTAGE 2 (NUJ)

New Jersey Dividend Advantage (NXJ) has elected to defer \$1,030,383 of net realized losses from investments incurred from November 1, 2002 through June 30, 2003 ("post-October losses") in accordance with Federal income tax regulations. These post-October losses are treated as having arisen on the first day of the current fiscal year.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under New Jersey Investment Quality's (NQJ), New Jersey Premium Income's (NNJ), Pennsylvania Investment Quality's (NQP) and Pennsylvania Premium Income 2's (NPY) investment management agreements with Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR/A

For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

Under New Jersey Dividend Advantage's (NXJ), New Jersey Dividend Advantage 2's (NUJ), Pennsylvania Dividend Advantage's (NXM) and Pennsylvania Dividend Advantage 2's (NVY) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For net assets over \$2 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser, or its affiliates.

For the first ten years of New Jersey Dividend Advantage's (NXJ) and Pennsylvania Dividend Advantage's (NXM) operations, the Adviser has agreed to reimburse the Funds, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

Build Your Wealth
AUTOMATICALLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times

when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

PROXY VOTING POLICIES AND PROCEDURES

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling Nuveen Investments at (800) 257-8787; and (ii) on the Commission's website at <http://www.sec.gov>.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Average Effective Maturity: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

Leverage-Adjusted Duration: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates

change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the six-month period ended December 31, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.
