Item 5. Other Events

News release

On October 31, 2001, HEI issued the following news release:

HAWAIIAN ELECTRIC INDUSTRIES, INC. REPORTS THIRD QUARTER 2001 EARNINGS AND
DISCONTINUATION OF ITS INTERNATIONAL SUBSIDIARY AND PROVIDES NOTICE OF ITS
PROPOSED REGISTERED OFFERING OF COMMON STOCK

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

HONOLULU -- Hawaiian Electric Industries, Inc. (NYSE - HE) reported net income from continuing operations for the three months ended September 30, 2001 of \$28.7 million, or 85 cents per share, compared with \$31.2 million, or 96 cents per share, in the same quarter of 2000. For the nine months ended September 30, 2001, net income from continuing operations was \$82.5 million, or \$2.47 per share, compared with \$87.9 million, or \$2.71 per share, in the same period last year. "Although results were down this quarter as compared with the same quarter in 2000, our core businesses, the utilities and bank, turned in solid results," said Robert F. Clarke, HEI chairman, president and chief executive officer.

The Company also announced that it has discontinued its international power operations effective September 30, 2001. "After evaluating strategic alternatives for our international operations, we believe it is in the best interest of our shareholders to exit this business and focus resources on our Hawaii operations," said Clarke. Over the next year, HEI Power Corp. will wind down its operations and manage the disposition of its assets.

Net losses from discontinued operations during the third quarter, including the discontinued international operations, were \$21.5 million or 64 cents per share, compared to \$9.2 million, or 28 cents per share, in the same quarter last year. Net losses from discontinued operations for the nine months ended September 30, 2001 were \$22.1 million, or 66 cents per share, versus \$17.8 million, or 55 cents per share, in the same period of 2000.

Electric utility net income during the quarter was \$25.7 million versus \$25.0 million in the same quarter last year. Net income for the nine months was \$69.8 million versus \$72.8 million in the same period of 2000. "Utility net income was up slightly this quarter as compared with the same quarter last year. Warmer weather drove kilowatthour sales higher by 1.6% this quarter," said Clarke. "Increased sales, along with decreased maintenance costs, were partially offset by increases in purchased power capacity charges and depreciation expense for the quarter as compared to the same period in 2000."

Bank net income in the third quarter was \$11.1 million, compared to \$9.8 million in the same quarter last year. Net income for the nine months was \$33.2 million, versus \$30.4 million in the same period of 2000. "Our bank earnings were 12.8% higher this quarter compared with the same quarter last year due largely to increases in other income," said Clarke. Lower losses from investing activities, along with increased credit card interchange and ATM fees, contributed to higher other income in the third quarter. Investment activity losses were lower due to the disposition of certain trust securities. The bank's interest rate spread - the difference between the yield on earning assets and the cost of funds declined 3 basis points to 3.08% in the quarter and 8 basis points for the nine months to 3.10%.

The financial results of HEI's other nonutility subsidiaries and the corporate parent reflect a larger net loss for the quarter and nine months ended September 30, 2001 than in the same periods last year due to higher losses from investments acquired in connection with the disposition by the bank of certain trust securities and increased interest expense.

"While we are pleased with our third quarter results from our core businesses, the September 11 attacks, as well as the ensuing responses, have greatly affected the people of Hawaii and will undoubtedly impact our operations. Resulting declines in Hawaii tourism will have an effect on our utilities' kilowatthour sales and may eventually lead to increased delinquencies at our bank," said Clarke. "Volatility in U.S. capital markets may also negatively impact net pension income, the bank's interest rate spread and

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

investments at the corporate parent. While the magnitude and duration of the economic impacts of the September 11 attacks are now unknown, HEI's core operations have been stable and have generated good cash flows even in difficult times."

HEI is a diversified holding company. Its core businesses are electric utilities and a bank.

Notice of Proposed Registered Offering of Common Stock

HEI also announced that it plans to offer in an underwritten, registered public offering 1.5 million shares of its common stock (or 1.725 million shares if the underwriters' over-allotment option is exercised). Proceeds from the sale will be used to repay debt and for other general corporate purposes.

This notice does not constitute an offer of common stock or any other securities for sale.

###

Forward-looking Statements

This release may contain "forward-looking statements," that are subject to risks and uncertainties. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plans, believes, predicts, estimates or similar expressions. Forward-looking statements in this release should be read in conjunction with "Forward-looking statements" set forth on page v of HEI's Form 10-Q for the quarter ended June 30, 2001 (incorporated by reference herein) and in HEI's future periodic reports that discuss important factors that could cause HEI's results to differ materially from those anticipated in such statements. Forward-looking statements speak only as of the date of this release.
