Yes No

INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Set forth herein as Exhibit 1 is a copy of Announcement No. 6 - 2005 issued by A/S STEAMSHIP COMPANY TORM to The Copenhagen Stock Exchange on May 12, 2005.

Exhibit 1

ANNOUNCEMENT NO. 6 - 2005
TORM - First quarter 2005 report

12 May 2005

Profit for first quarter 2005 of USD 54.9 mill. (DKK 311.8 mill.) before tax and profits from sale of vessels. Expectations for 2005 are maintained at USD 165-175 mill. before tax, dividends received and profits from sale of vessels.

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

- o Profit for the first quarter 2005 was USD 74.3 mill. (DKK 422.0 mill.) before tax, including profit from vessel sales of USD 19.4 mill. The result is in line with expectations.
- o As previously announced, during the first quarter 2005 TORM sold two vessels, TORM Hilde and TORM Margrethe, which have subsequently been chartered back for a period of five years. The gain on the sale of these two vessels was USD 19.4 mill. In the second quarter 2005 TORM Asia and TORM Olga have been sold at a gain of about USD 30 mill.
- o Cash flow from operating activities was USD 83.4 mill. in the first quarter 2005.
- o Return on Invested Capital was 41.8% p.a., and Return on Equity was 32.3% p.a. in the first quarter 2005. Earnings per share (EPS) for the first quarter 2005 were USD 2.0.
- o Shareholders' equity was USD 907.6 mill. as of 31 March 2005, of which the unrealised value adjustment on the Norden shares was USD 48.1 mill. in the first quarter 2005.
- o Freight rates for the Company's product tankers have been at a high level in the first quarter 2005, although there has been a weakening tendency during the quarter in line with expectations and normal seasonal patterns.
- o In the bulk market, the rates have recently decreased substantially due to lower levels of imports in Asia. Due to the high levels of coverage of freight rates, this will only have limited influence on TORM's earnings for the remaining part of 2005.
- o To date in 2005 TORM has received dividends of USD 13.5 mill. and sold vessels with a total gain of about USD 49 mill.
- o Expectations for 2005 are maintained at USD 165-175 mill. before tax, dividends received and profits from sale of vessels.

A telephone conference and webcast (www.torm.com), reviewing the report for the first quarter 2005, will take place on 12 May 2005, at 17.00 Copenhagen time. To participate, please call 10 minutes before the call starts on tel.: +45 32 71 46 11 (from Europe) or +1 334 323 6203 (from USA).

TANKER DIVISION

The Tanker division achieved a profit in the first quarter 2005 of USD 51.1 mill. Of this amount, the gain on the sale of TORM Hilde and TORM Margrethe represented USD 19.4 mill.

The market for TORM's product tankers started the first quarter at a very high level which decreased during the quarter to lower, although still very profitable levels.

The continued solid growth in the world economy and limited growth in the refining capacity in the Western hemisphere underpin the demand for transportation of refined oil products, which was the basis for the high rate level.

It is in line with normal seasonal patterns that a slowdown of the tanker market takes place towards the end of the first and into the second quarter as the winter season ends, and the resulting transportation of heating oil to the Western world tails off.

*) TCE = Time Charter Equivalent Earnings = Gross freight income less bunker, commissions and port expenses

***) Operating expenses for own vessels.

****) TCE earnings less operating expenses and charter hire.

TORM's Tanker division achieved freight rates in the first quarter 2005 that compared to the first quarter 2004 were 20%, 5%, and 23% higher for the LR2, LR1 and MR segments, respectively. Freight rates in the first quarter continued into the first quarter at a very high level.

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

The number of earning days in the first quarter 2005 in the LR2-segment is almost unchanged from the first quarter 2004. The number of earning days in the LR1 segment increased by 73% due to the delivery of the newbuildings TORM Signe and TORM Ismini and TORM Sara (built 2003). Available earning days in the MR-segment increased by 7% compared to the same period the year before, which was due to the delivery of TORM Helvig during the first quarter 2005 and that TORM Alice which was delivered mid-first quarter 2004 was included in the full first quarter in 2005.

BULK DIVISION

The profit after tax for the Bulk division in the first quarter 2005 was USD 24.8 mill.

Freight rates in the bulk market were at a high and relatively stable level during the first quarter 2005, although the rates have shown a distinctly negative tendency since the quarter's end.

The development in the bulk market continues to be highly dependent on the development in certain markets, especially China, India and Japan.

Earnings data for the Bulk division

	2004	2005	
	q1	q1	% C

Panamax vessels			
Available earning days	1,383	1,324	
TCE per earning day (USD/day) *)	23,219	30,641

Handysize vessels			
Available earning days	303	199	
TCE per earning day (USD/day) *)	15,963	18,952	
OPEX per earning day (USD/day) **)	-3,112	-2,916	
Operating C/F per earning day (USD/day) ***)	11,187	15,306	

*) TCE = Time Charter Equivalent Earnings = Gross freight income less bunker, commissions and port expenses

***) Operating expenses for own vessels.

****) TCE earnings less operating expenses and charter hire.

Compared to the same period the year before, TORM achieved freight rates in the Bulk division in the first quarter 2005 that were 32% and 19% higher for the Panamax and Handysize vessels, respectively. The higher rates for the Panamax vessels are a result of time charters renewed at higher rates.

The number of available earning days was 4% and 34% lower for TORM's Panamax and Handysize vessels, respectively. The decrease was due to the expiry of chartered-in tonnage.

UNALLOCATED ACTIVITIES

Unallocated activities consist principally of exchange rate adjustments on cash

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

and bonds denominated in DKK of USD 1.6 mill. and tax of USD 5.8 mill.

FIRST QUARTER 2005 RESULTS

Profit after tax for first quarter 2005 was USD 68.5 mill. including gain on sale of TORM Margrethe and TORM Hilde of USD 19.4 mill. The result is considered to be highly satisfactory.

Time Charter Equivalent Earnings increased in the first quarter 2005 to USD 105.6 mill. (USD 81.8 mill. in first quarter 2004). The increase is primarily the result of firming freight rates in the Bulk division, partly offset by fewer earning days in this division, combined with better rates and a higher number of earning days in the Tanker division.

Gross profit was USD 75.6 mill. (USD 55.8 mill.)

Profit before depreciation - including gain on sale of vessels of USD 19.4 mill. (USD 0 mill.) - was USD 91.9 mill. (USD 43.5 mill.).

Depreciation was USD 10.3 mill. in the first quarter 2005 (USD 8.3 mill.). The increase in depreciation is a result of the increase in the size of the fleet through the delivery of both newbuildings and second hand vessels during the period March 2004 - January 2005.

Financial items were a net expense of USD 7.3 mill. (USD 4.1 mill.). This includes net interest expenses of USD 3.1 mill., other financial items of plus USD 0.2 mill. and negative exchange rate adjustments on assets denominated in currencies other than USD of USD 4.4 mill. These assets mainly comprise cash and bonds denominated in DKK. The bond portfolio is in the process of being divested.

Profit before tax was USD 74.3 mill. (USD 31.1 mill.), and Profit after tax was USD 68.5 mill. (USD 31.1 mill.). Of this, the Tanker division contributed USD 51.1 mill. and the Bulk division contributed USD 24.8 mill. Other activities had Profit after tax of USD -7.4 mill.

Cash flow from operating activities was positive by USD 83.4 mill. in the first quarter 2005, and consisted mainly of cash earnings.

Cash flow from investing activities was negative by USD 193.6 mill. This amount consists of investments in tangible fixed assets - mainly additions of vessels, less the effect of sales of vessels.

Cash flow from financing activities was USD 137.4 mill. in the first quarter 2005. This amount comprises borrowings in connection with the delivery of newbuildings and second hand vessels of USD 159.1 mill., less repayments on mortgage and leasing debt of USD 21.7 mill.

The total cash effect from the first quarter 2005 was USD 27.2 mill. The Company's cash and equivalents were USD 92.7 mill. against USD 65.6 mill. at the end of 2004.

During the first quarter 2005 total assets increased from USD 1,239.6 mill. to USD 1,499.0 mill., mainly due to an increase in fixed assets during the period from USD 1,056.5 mill. to USD 1,256.2 mill. This was positively impacted by the effect of delivery of newbuildings and second hand vessels as described in the section about fleet development and the increased value of the investment in Norden, offset by depreciation during the period. The Norden investment is valued at DKK 3,245 per share, the Copenhagen Stock Exchange share price on 31 March 2005.

Net interest bearing debt increased in the first quarter 2005 from USD 291.6

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

mill. to USD 379.9 mill. Net interest bearing debt includes a payment of USD 105.3 mill. to the seller of certain of the vessels TORM acquired during the first quarter 2005. This loan is interest-free until September 2005. The increase in net interest bearing debt in the quarter is consequently due to net borrowing in connection with the purchase or delivery of vessels, offset by the positive cash effect from operations during the period.

In the first quarter 2005 shareholders' equity increased from USD 788.7 mill. to USD 907.6 mill. mainly as an effect of the result in the period and a positive value adjustment on TORM's shareholding in Norden. Shareholders' equity as a percentage of total assets decreased from 63.6% at 31 December 2004 to 60.5% at 31 March 2005.

As at 31 March 2005, TORM owned 1,568,472 own shares, corresponding to 4.3% of the Company's share capital, which is a reduction of 8,140 shares from 31 December 2004.

FLEET DEVELOPMENT AND ORDER BOOK

TORM continued the renewal and expansion of the owned fleet during the first quarter 2005.

The two LR1 product tankers TORM Margrethe (built 1988) and TORM Hilde (built 1990) have been sold, and the Company has taken delivery of the two LR1 product tankers TORM Signe and TORM Sara and the MR product tanker TORM Helvig. As a result, the average age of the tanker fleet as at mid-May 2005 is 3.7 years.

TOTAL	8.0			8.
TOTAL	29.5			30.

* Chartered back on five year charter.

In the second quarter 2005 TORM entered into an agreement to sell the MR product tankers TORM Olga (built 1992) and TORM Asia (built 1994) with delivery in the second and third quarter 2005, respectively. The gain on the sale is about USD 30 mill.

Following the delivery of three product tankers in 2005 so far, the total order

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

book stands at 15.5 product tankers and one bulk vessel:

Panamax	1									

PRODUCT TANKER POOLS

As at 31 March 2005 the three product tanker pools consisted of 76 vessels, and a further two vessels have joined the pools in April 2005.

DAMPSKIBSSELSKABET 'NORDEN' A/S

TORM's investment in Norden once again developed positively in the first quarter of 2005. The value of the Norden shareholding was DKK 2,362 mill. (USD 411.0 mill.) at 31 March 2005 - an increase of DKK 378 mill. (USD 48.1 mill.) since 31 December 2004.

As of 2005 value adjustments are recognized directly under shareholders' equity.

Furthermore, Norden have since the end of the first quarter of 2005 paid a dividend which for TORM corresponds to an income of DKK 73 mill. (USD 13.5 mill.)

TORM continues to be satisfied with the investment in Norden given the Company's positive expectations for the bulk market as well as having regard to Norden's forward coverage profile and income potential in 2005.

EXPECTATIONS FOR 2005

Tanker division

During the first quarter the rates were generally as expected in the Tanker division's three segments, whereas the rate level in the beginning of the second quarter has been slightly better than expected. The rate expectations for the Tanker division are therefore relatively unchanged.

Bulk division

It appears after a very strong first quarter that Japan and China have scaled back the import volumes in the second quarter noticeably following the beginning of the new fiscal year in April, where the price of iron ore has increased considerably. A similar development occurred in 2004 when the build up of large inventories of raw materials in the first quarter subsequently saw a reduction in inventories in the second quarter.

As it was the case in 2004, this has led to a significant weakening of the bulk market in the second quarter.

TORM expects that - as it was the case in 2004 - the reduction in imports and

Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

therefore the lower freight rates will be of a temporary nature, and that freight rates consequently will increase again later in the year when inventories reach lower levels, although not necessarily at the same pace as in 2004.

As of 1 May 2005 about 78% of TORM's earning days in 2005 in the Panamax segment were covered at an average rate of USD 30,400 per day.

Financial expectations to 2005

Since TORM announced its estimate for earnings in 2005 on 8 March 2005, rate developments during the first quarter have been largely as expected.

The beginning of the second quarter has been slightly better than expected in the Tanker division, whereas the weaker Bulk market has only had a smaller impact for the Bulk division so far given the high degree of forward coverage and will only be of very limited influence in the second quarter 2005.

Also, TORM has sold two vessels since 8 March, which will result in fewer earning days during the year.

The net effect of the above mentioned developments is that expectations for 2005 are maintained at USD 165-175 mill. before tax, dividends received and profits from sale of vessels.

In addition to this, TORM has - as mentioned before - sold a total of four vessels with a combined gain of about USD 49 mill. and received dividends from Norden of USD 13.5 mill. - in total USD 62.5 mill.

The expectations are based on a USD/DKK exchange rate of 5.40, and are subject to uncertainty in both directions. The USD/DKK exchange rate was 5.75 at the end of first quarter 2005.

SAFE HARBOUR STATEMENT - FORWARD LOOKING STATEMENTS

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of crude oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for

Edgar Filing: AS STEAMSHIP CO FORM - Form 6-K

double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

ACCOUNTING POLICIES

The accounting policies have been changed as of 1 January 2005 to comply with International Financial Reporting Standards (IFRS). The accounting policies applied in the preparation of the consolidated financial statements for the first quarter of 2005 have changed as described in the section "Effect of IFRS adoption" in the Annual Report 2004. Reconciliation of net profit and shareholders' equity for the first quarter of 2004 between previous GAAP and IFRS is presented below.

Effect of IFRS adoption

Q1 2004 USD mill.	Income statement	Shareholders' equity
-----	-----	-----
According to previous GAAP	176.2	584.3
Effect of:		
Change in liability and value of exercised share options	-9.5	
Unrealized value adjustment, shares	-135.6	
Exchange rate adjustment due to change of measurement currency in the administrative entity		0.1
Liability, non-exercised share options		-7.0
	-----	-----
According to current GAAP	31.1	577.4
-----	-----	-----

TORM does not apply IAS 34 in the preparation of interim financial statements.

The report for the first quarter of 2005 is unaudited in line with normal practice

TELEPHONE CONFERENCE AND WEBCAST

TORM invites analysts and investors to a telephone conference reviewing the report for the first quarter 2005 on 12 May 2005, at 17.00 Copenhagen time. The conference call will be conducted in English and will be hosted by Klaus Kjaerulff, CEO and Klaus Nyborg, CFO. To participate, please call 10 minutes before the call starts on tel.: +45 32 71 46 11 (from Europe) or +1 334 323 6203 (from USA). The telephone conference will also be broadcast via the Internet (www.torm.com), from where presentation material can also be downloaded.

NEXT REPORTING

TORM's financial report for the second quarter 2005 will be released on 9 August 2005.

STATEMENT BY THE BOARD OF DIRECTORS AND MANAGEMENT ON THE INTERIM REPORT

Edgar Filing: AS STEAMSHIP CO FORM - Form 6-K

The Board of directors and Management have considered and approved the interim report for the period 1 January - 31 March 2005.

The interim report, which is unaudited, has been prepared in accordance with the general Danish financial reporting requirements governing listed companies, including the measurement and recognition provisions in IFRS which are expected to be applicable for the annual report for 2005.

We consider the accounting policies applied to be appropriate. In our opinion the interim report gives a true and fair view of the Group's financial position at 31 March 2005 and of the results of operations and consolidated cash flows for the period 1 January - 31 March 2005.

Copenhagen, 12 May 2005
