Item 1.01. Entry into a Material Definitive Agreement

On January 26, 2010, Bunge Limited (“Bunge”), and two of its wholly owned subsidiaries, Bunge Brasil Holdings B.V. (“BBH”) and Bunge Fertilizantes S.A. (“BFE” and, together with BBH, the “Sellers”), entered into a Share Purchase and Sale Agreement and Other Covenants (the “Purchase Agreement”) with Vale S.A. (“Vale”) and Mineração Naque S.A., an affiliate of Vale (the “Buyer”), pursuant to which the Buyer will acquire certain assets related to Bunge’s upstream fertilizer business in Brazil (the “Transaction”).

The Purchase Agreement provides, among other things, that the Buyer will purchase from the Sellers all of the outstanding shares of BPI – Bunge Participações e Investimentos S.A. (the “Company”). The Company operates Bunge’s phosphate mining business in Brazil (the “Phosphate Mining Business”) and, directly or indirectly, holds Bunge’s interests in Fertifos Administração e Participação S.A. (“Fertifos”), Fosbrasil S.A. (“Fosbrasil”), Indústrias de Fosfatados Catarinense Ltda. (“IFC”), Fertilizantes Fosfatados S.A. – Fosfertil (“Fosfertil”), Ultrafertil S.A. (“Ultrafertil”) and UF Distribuidora de Combustíveis Ltda. (“UF Distribuidora” and collectively, the “Subsidiaries”). The purchase price for the transaction is \$3.8 billion in cash, subject to a post-closing adjustment for differences in the Company’s net debt and working capital at closing from December 31, 2009. The Purchase Agreement provides that Bunge and Vale shall be jointly and severally liable with the Sellers and the Buyer, respectively, for each of the Sellers’ and the Buyer’s respective obligations under the Purchase Agreement.

The Sellers and the Buyer have agreed to customary representations, warranties and covenants in the Purchase Agreement. The Sellers have agreed, among other things and subject to certain exceptions, to cause the Company and the Subsidiaries to conduct their respective businesses in the normal course of business, consistent with past practice between the date of the execution of the Purchase Agreement and the consummation of the Transaction (the “Closing”). The parties have agreed to cooperate and use their respective commercially reasonable efforts to cause the conditions precedent to the Closing to be satisfied as promptly as practicable. The Buyer has agreed to seek Brazilian antitrust clearance for the Transaction, receipt of which is not a condition to Closing. In addition, the Sellers and their affiliates have agreed, subject to certain exceptions, to certain non-competition provisions with respect to the production of certain fertilizer products, and Vale and its controlled affiliates have agreed not to produce, distribute or commercialize certain fertilizer products, in each case, in Brazil until December 31, 2012, which may be extended to December 31, 2013.

The Closing is subject to several customary conditions precedent. In addition, the Buyer’s obligation to consummate the Transaction is subject to, among other things (i) the filing of certain requirements with certain governmental authorities and third parties to obtain certain permits necessary in connection with the operation of the Phosphate Mining Business, (ii) approval from certain third parties, including certain Brazilian governmental agencies, for the assignment of certain contracts relating to the Company’s existing mineral rights and (iii) the extension by Companhia Brasileira de Metalúrgia e Mineração – CBMM of a license to exploit mineral phosphate by the Company.

The Purchase Agreement provides that the Closing will occur on the last business day of the month in which the parties have confirmed that all of the conditions precedent have been satisfied or waived, provided such day is at least ten business days following the satisfaction or waiver of the last condition precedent and, if not, the Closing will occur on the last business day of the following month. The Purchase Agreement may be terminated in the event all of the conditions precedent have not been satisfied within 180 days following the date of the execution of the Purchase Agreement or in the event of a final, non-appealable order preventing the Closing.

The Sellers have agreed to customary indemnification provisions, including, subject to certain limitations, to indemnify the Buyer in respect of, among other things, (i) inaccuracies of the Sellers’ representations and warranties, (ii) non-compliance by the Sellers with any of their obligations under the Purchase Agreement, (iii) liabilities of the Company in its capacity as legal or contractual successor to the Phosphate Mining Business that arose prior to the

Closing, and (iv) defects in title or process affecting the Buyer's ownership of any of the Company's shares or assets. The Sellers' obligation to indemnify the Buyer and Vale survives until the expiration of the applicable statute of limitations. The Sellers' are not required to indemnify the Buyer with respect to, among other things, (i) any liability reflected in financial statements delivered in connection with the Purchase Agreement or (ii) subject to certain exceptions, any pre-closing environmental liabilities. The Sellers are generally not required to indemnify the Buyer and Vale until the aggregate amount of their losses exceed \$1 million and are not required to indemnify the Buyer and Vale for losses incurred by Fosfertil and its subsidiaries in excess of a specified cap.

Subject to certain limitations, the Buyer has agreed to indemnify the Seller in respect to (i) inaccuracies of the Buyer's representations and warranties, (ii) non-compliance by the Buyer with any of its obligations under the Purchase Agreement and (iii) post-closing liabilities of the Company and its subsidiaries. The Buyer's obligation to indemnify the Sellers survives until the expiration of the applicable statute of limitations.

The Purchase Agreement provides that, at the Closing, the parties or their respective affiliates will enter into several ancillary agreements, including a transition services agreement and a supply agreement pursuant to which the Buyer will supply BFE with certain phosphate fertilizer products for use by BFE in its retail fertilizer business that is not being sold pursuant to the Transaction.
