#### **Table of Contents**

The cost and unrealized appreciation (depreciation) of investments of the Fund at September 30, 2009, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 316,424,056
Gross unrealized appreciation Gross unrealized depreciation	\$ 64,908,070 (14,417,358)
Net unrealized appreciation	\$ 50,490,712

Written call options activity for the fiscal year to date ended September 30, 2009 was as follows:

	Number of Contracts		Premiums Received		
Outstanding, beginning of period	3,688	\$	14,192,036		
Options written	33,142		74,785,542		
Options terminated in closing purchase transactions	(33,382)		(82,799,457)		
Outstanding, end of period	3,448	\$	6,178,121		

All of the assets of the Fund are subject to segregation to satisfy the requirements of the escrow agent. At September 30, 2009, the Fund had sufficient cash and/or securities to cover commitments under these contracts.

The Fund is subject to equity price risk in the normal course of pursuing its investment objective. The Fund generally intends to write index call options above the current value of an index to generate premium income. In writing index call options, the Fund in effect, sells potential appreciation in the value of the applicable index above the exercise price in exchange for the option premium received. The Fund retains the risk of loss, minus the premium received, should the price of the underlying index decline.

At September 30, 2009, the aggregate fair value of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in a liability position and whose primary underlying risk exposure is equity price risk was \$3,859,264.

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At September 30, 2009, the inputs used in valuing the Fund s investments, which are carried at value, were as follows:

	nuoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	
<b>Asset Description</b>	(Level 1)	(Level 2)	(Level 3)	Total
Common Stocks	\$ 366,914,768	\$	\$	\$ 366,914,768
<b>Total Investments</b>	\$ 366,914,768	\$	\$	\$ 366,914,768
<b>Liability Description</b>				
Covered Call Options Written	\$ (3,859,264)	\$	\$	\$ (3,859,264)
Total	\$ (3,859,264)	\$	\$	\$ (3,859,264)

The level classification by major category of investments is the same as the category presentation in the Portfolio of Investments.

The Fund held no investments or other financial instruments as of December 31, 2008 whose fair value was determined using Level 3 inputs.

For information on the Fund s policy regarding the valuation of investments and other significant accounting policies, please refer to the Fund s most recent financial statements included in its semiannual or annual report to shareholders.
