REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Goodrich Corporation

Benefit Design and Administration Committee

We have audited the accompanying statements of net assets available for benefits of Goodrich Corporation Employees Savings Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
Year Ended December 31, 2009

1. Description of the Plan

The following description of Goodrich Corporation Employees Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Goodrich Corporation (the Company) and all subsidiaries of the Company to which the Plan has been extended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective June 30, 2009, the Goodrich Corporation Savings Plan for Rohr Employees 401(k) Plan (the Rohr Plan) was merged into the Plan, and \$64,386,168, which represented all remaining net assets of the Rohr Plan, was transferred to the Plan.

Participation in the Plan

The Plan offers participants the choice of three savings options: an after-tax savings option, a pre-tax 401(k) savings option and a Roth 401(k) option. Under the traditional after-tax savings and Roth 401(k) options, participant contributions are subject to federal income taxes. When withdrawn, participants pay income tax on the investments earnings on traditional after-tax contributions. Investment earnings on Roth 401(k) contributions are never taxed as long as certain conditions are met upon withdrawal. Under the pre-tax savings option the participant postpones paying federal income taxes on the amount of contributions deducted from his or her salary until the contributions are withdrawn from the Plan. Participants can elect to participate in all of the savings options. Participants can contribute to each of the investment funds under all savings options.

Contributions

Each employee who elects to become a participant in the Plan may make pre-tax, after-tax or Roth 401(k) contributions up to 25% of their qualified compensation, as defined in the Plan document. Maximum pre-tax plus Roth 401(k) participant contributions (which are limited by Internal Revenue Service regulations) were \$16,500 for 2009. Highly compensated employees may be limited to contributing a lower percentage than 25% in order to facilitate the Plan's passing of non-discrimination testing. Participants age 50 or older can contribute pre-tax catch-up contributions to the Plan, subject to limitations.

In December 2005, the Plan was amended to change the Company match that applies to non-bargaining unit and certain bargaining unit employees hired after December 31, 2005 to 100% of participant contributions up to 6% of pay. In addition, these participants will receive a Company contribution equal to 2% of eligible pay at the end of each Plan year provided they are still employed. This 2% contribution is subject to a 3-year vesting schedule. In addition, non-bargaining unit and certain bargaining unit employees hired prior to December 31, 2005 who elected to freeze pension benefit service, effective July 1, 2006, receive the same match and Company contributions as new hires.

Vesting Provisions

Participant contributions and earnings thereon are always fully vested. The Company match contribution and other Company contributions made to participant accounts subsequent to December 31, 2001 and earnings thereon are 100% vested.

The Plan was amended in December 2005 to provide discretionary contributions, and the additional 2% Company contribution is subject to a 3-year vesting schedule.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's contributions. The accounts are further adjusted for allocations of the Plan's investment income or losses and administrative expenses. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (the Code).

Dividends, interest and proceeds from sale of investments in each fund are reinvested in the respective fund.

Benefit Payments

Company contributions made after January 1, 1990, but prior to January 1, 2002, may not be withdrawn until the participant reaches age 55 or upon termination, disability or death. Company matching contributions made on or after January 1, 2002, may not be withdrawn until age 59½ or upon termination, disability or death. Participants separating from service who meet certain requirements have the option of deferring distribution of the vested value of his or her account until age 70-1/2.

A participant may make an in-service withdrawal of his or her pre-tax contributions upon incurring a financial hardship, subject to certain conditions as set forth in the Plan document.

A participant who elects to withdraw from the Plan is paid the fair value of his or her vested account balance.

Distributions from the Company Stock Fund are made in cash or stock. Distributions from the other funds are made in cash.

Forfeiture of Interest

Upon a participant's separation from service, the portion of investments attributable to contributions made by the Company which have not vested shall remain in such accounts. Such nonvested amounts shall be forfeited on the date which is the earlier of the participant receiving a full distribution of the vested portion of the account balance or 60 consecutive months after separation from service. If the participant is rehired before such forfeiture, the nonvested portion shall remain in the participant's account.

All amounts forfeited under the Plan will remain in the Plan and be used to reduce future contributions to the Plan by The Company. If the Plan is terminated, any forfeited amounts not yet applied against the Company's contributions will accrue ratably to the remaining participants in the Plan at the date of termination.

Participant Loans

Participant loans consist of general purpose and principal residence loans. General purpose loans have terms ranging from 1 to 5 years and provide fixed interest rates based upon the federal short-term rate, which ranged from 0.81% to 11.5% during 2009. Principal residence loans have terms ranging from 1 to 15 years and provide fixed interest rates based upon the federal long-term rate, which ranged from 2.74% to 8.96% during 2009. Under either type of loan, participants may borrow up to 50% of the value of their vested account balance up to a maximum of \$50,000. The minimum a participant may borrow is \$1,000. In general, participant loans are repaid in equal bi-weekly installments through payroll deductions and are secured by the participant's interest in the Plan.

Administrative Expenses

Investment management fees and administrative expenses related to recordkeeping are charged against the earnings of the investment funds in which the participants' funds are invested. Fees for certain transactions, such as withdrawals and loan processing, are charged directly to the account of the participant reporting such a transaction.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of a termination of the Plan, all participants will become 100% vested and the net assets of the Plan will be distributed to the participants based on the value of their accounts. Since this is an individual account plan, the Pension Benefit Guaranty Corporation does not guarantee any benefits.

The foregoing description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Copies of the Plan document are available from the Human Resource Department of the Company.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

3. Fair Value of Financial Investments, Carried at Fair Value

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2009	2008
JP Morgan Chase & Co. 2A Stable Value Fund	\$ 286,961,448	\$ 249,427,814
Goodrich Corporation 2I Company Stock Fund	256,427,210	163,714,647
Mellon Capital Management 2C S&P Index Fund	134,998,258	102,661,604
Fidelity Management & Research Corp Freedom 2020 Fund	105,086,733	75,804,903

The Company defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The following three levels of inputs are used to measure fair value:

Level 1 quoted prices in active markets for identical assets and liabilities.

Level 2 observable inputs other than quoted prices in active markets for identical assets and liabilities.

Level 3 unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measurement at fair value.

Mutual Funds

Plan investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices in an active market, which represent the net asset values of shares held by the Plan at the end of the year.

Company Stock Fund

The Company Stock Fund is a unitized separate account comprised of common stock of Goodrich and short-term cash investments. The unit value of the fund is derived from the fair value of the common stock based on quoted market prices in an active market and the short-term cash investments.

Unitized Separate Accounts

The unitized separate accounts are comprised of common stock and short-term cash investments. The unit value of the accounts are derived from the fair value of the common stock based on quoted market prices in an active market and the short-term cash investments.

Brokerage Link

Investments in the individual Fidelity mutual funds and investments under the brokerage link are valued at quoted market prices in an active market on the last business day of the Plan year.

Collective Trust Funds

The collective trust funds are comprised of fixed income/equity investments and short-term cash investments. The unit value of the accounts are derived from the fair value of the underlying securities based on quoted market prices in an active market and short-term cash investments.

Investment Contracts

Investments in the accompanying Statements of Net Assets Available for Benefits include fully benefit responsive investment contracts recognized at contract value as further described below. The fair value of participation units owned by the funds are determined based on the fair value of the underlying fixed income portfolio on the last day of the Plan year. Fixed income securities held by the funds are valued each day based on readily available market quotations received from independent or affiliated commercial pricing services. The fair value of the wrapper on investment contracts is determined by the difference between replacement cost and actual cost, projected for the duration of the associated portfolio, discounted back to measurement date using an appropriate discount rate. The fully benefit responsive investment contracts are reported at fair value in the Plan's Statement of Net Assets Available for Benefits with a corresponding adjustment to reflect these investments at contract value. Investments reported in the Plan's Form 5500 differ from Investments reported in the Statements of Net Assets Available for Benefits at December 31, 2009 and 2008 by the adjustment from fair value to contract value for the fully benefit responsive investment contracts of \$14,741,402 and \$32,626,285, respectively.

Participant Loans

Participant loans are valued at their outstanding balance, which approximates fair value.

During 2009, the Plan's investments including gains and (losses) on investments bought and sold, as well as held during the year appreciated in value by \$329,866,095 as follows:

Level 1	\$ 147,945,313
Level 2	182,698,241
Level 3	(777,459)
	\$ 329,866,095

The Plan's financial instruments carried at fair value on a recurring basis were as follows:

	Balance December 31, 2009			Balance December 31, 2008			Level 3		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
	(Dollars in millions)								
Investments:									
Mutual Funds	\$ 735.3	\$ 735.3	\$	\$	\$ 481.5	\$ 481.5	\$	\$	\$
Goodrich Stock Fund	256.4		256.4		163.7		163.7		
Unitized Separate Accounts	122.9		122.9		86.2		86.2		
Brokerage Link Collective Trust Funds and Investment Contracts	19.3	19.3			13.8	13.8			
	470.4		470.4		387.6		387.6		
	0.8			0.8	0.8				0.8

Wrapper on
Investment
Contracts

Participant Loans	56.6	56.6	45.4	45.4
-------------------	------	------	------	------

Investments, at fair
value

\$ 1,661.7	\$ 754.6	\$ 849.7	\$ 57.4	\$ 1,179.0	\$ 495.3	\$ 637.5	\$ 46.2
------------	----------	----------	---------	------------	----------	----------	---------

The tables below set forth a summary of changes in the fair value of the Plan's level 3 investments, in millions, for the year ended December 31, 2009, in millions of dollars:

	Fair Value January 1, 2009	Loan Repayment (Principal and Interest)	Loan Withdrawals	Benefit Payments	Defaulted Loans	Fair Value December 31, 2009
Participant Loans	\$ 45.4	\$ (20.7)	\$ 34.2	\$ (1.8)	\$ (0.5)	\$ 56.6

4. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated July 22, 2004, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Goodrich Corporation Benefit Design and Administration Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

5. Transactions with Parties-in-Interest

The Company pays certain legal and accounting expenses of the Plan. Other than as described above or pursuant to the Trust Agreement with Fidelity Investments, the Plan has had no agreements or transactions with any parties-in-interest that are prohibited transactions under ERISA section 3(14).

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
