NOTES TO FINANCIAL STATEMENTS

POINT TO POINT NETWORK SERVICES, INC.

=====

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Reporting Entity: Point to Point Network Services, Inc. (the Company) was incorporated on January 11, 1994, as a Massachusetts corporation. The Company's primary business activities consist of the installation and integration of communications networking design and build-out services, which include voice, data, video cable and designs, data networks and phone systems, for customers in the communications and telecommunications industries located throughout New England and the State of New York.

Cash: The Company maintains cash in bank deposit accounts, which at times may exceed federally insured limits.

Revenue Recognition: The Company reports revenues from fixed priced contracts using the percentage of completion method for financial reporting purposes. Under the percentage of completion method, revenues with respect to individual contracts are recognized in the proportion that costs incurred to date bear to total estimated costs. Revenue and cost estimates are subject to revision during the terms of the contracts, and any required adjustments are made in the periods in which the revisions become known. Provision is made, where applicable, for the entire amount of future estimated losses on contracts in progress when such losses are determined. General and administrative costs are not allocated to contract costs and are charged to expense as incurred.

The Company recognizes revenues from time and materials contracts and consulting services as those services are performed. Advance payments made under these contracts are recorded as deferred revenue and recognized when the related services are performed.

Inventory: Inventory is stated at the lower of cost (first-in, first-out) or market.

Property and Equipment: Property and equipment are recorded at cost.

Edgar Filing: NEXTGEN COMMUNICATIONS CORP - Form 8-K/A

Depreciation is calculated using straight-line and accelerated methods for both financial and income tax reporting purposes over the estimated useful and statutory lives of the related assets, respectively.

Income Taxes: The Company and its stockholder have elected to be treated as an S corporation under the provisions of the Internal Revenue Code, which provide that, in lieu of federal and certain state corporate income taxes, the stockholder is taxed on the Company's taxable income. Therefore, no provision or liability for federal and certain state income taxes are presented in these financial statements, other than taxes associated with built-in gains (Note 6).

The Commonwealth of Massachusetts limits the S corporation status for companies with revenues in excess of \$6 million. As a result, the Company is subject to "modified S Corporation status" for Massachusetts income tax purposes.

The Company reports under the provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" (SFAS 109), which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Advertising Costs: The Company expenses advertising costs as incurred. Advertising expense incurred by the Company during the years ended December 31, 2000 and 1999, amounted to \$25,922 and \$56,322, respectively.

Use of Estimates: Management has used estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities in its preparation of the financial statements in accordance with accounting principles generally accepted in the United States. Actual results experienced by the Company may differ from those estimates.

(b) Pro Forma Financial Information.

The Company's consolidated balance sheet at June 30, 2001, as reported in the Company's Form 10-QSB for the quarter ended June 30, 2001, reflects the Company's financial position after giving effect to the acquisition of Point To Point on June 29, 2001.

The following unaudited pro forma summaries for the (i) twelve months ended September 30, 2000, (ii) three months ended December 31, 2000, and (iii) six months ended June 30, 2001, present the condensed consolidated results of operations as if the acquisition of Point To Point had occurred as of October 1, 1999, after giving effect to certain adjustments.

The Company has accounted for the acquisition of Point To Point using the purchase method of accounting and, accordingly, recorded the acquired assets and liabilities at their estimated fair values at the closing date. The purchase price allocations are preliminary. Final allocations will be made based upon other studies that have not yet been completed.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets". Under this Statement, goodwill will no longer be required to be amortized, but will be subject to annual impairment tests in accordance with the new rules. The Company plans to adopt the Statement in the first quarter of fiscal 2002, and as such, will discontinue the amortization of its goodwill at such time.

The pro forma adjustments presented are based on available information and include certain assumptions and adjustments that are considered reasonable under the circumstances. These adjustments are directly attributable to the transaction referenced above and are expected to have a continuing impact on the Company's results of operations and financial condition.

The pro forma information has been prepared for comparative purposes only, and does not purport to be indicative of the Company's results of operations that would have actually occurred had the transaction been in effect as of the date or for the periods presented, or of results that may occur in the future. The unaudited pro forma consolidated financial statements should be read in conjunction with the Company's historical financial statements and related notes.
