**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(1) Basis of Presentation**

We, Famous Dave s of America, Inc. ( Famous Dave s or the Company ), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave s . As of March 30, 2008, there were 168 restaurants operating in 35 states, including 45 company-owned restaurants and 123 franchise-operated restaurants. An additional 141 franchise restaurants were committed to be developed through signed area development agreements at March 30, 2008.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission ( SEC ) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave s and its subsidiaries as of March 30, 2008 and December 30, 2007 and for the three month periods ended March 30, 2008 and April 1, 2007. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2007 as filed with the SEC. Certain reclassifications have been made to prior periods to conform to the current presentation.

Due to the seasonality of our business, revenue and operating results for the three months ended March 30, 2008 are not necessarily indicative of the results to be expected for the full year.

**(2) Net Income Per Common Share**

Basic net income per common share ( EPS ) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options, when dilutive.

Following is a reconciliation of basic and diluted net income per common share:

<i>(in thousands, except per share data)</i>	<b>Three Months Ended</b>

<b>Net income per common share basic</b>	<b>\$ 0.09</b>	<b>\$ 0.14</b>
<b>Net income per common share diluted:</b>		
Net income	\$ 835	\$ 1,402
Weighted average shares outstanding	9,611	10,130
Dilutive impact of common stock equivalents outstanding	162	362
Adjusted weighted average shares outstanding	9,773	10,492
<b>Net income per common share diluted</b>	<b>\$ 0.09</b>	<b>\$ 0.13</b>

All options outstanding, except 25,500 which were anti-dilutive, were used in the computation of diluted earnings per common share as of March 30, 2008. All options outstanding as of April 1, 2007 were used in the computation of diluted earnings per common share.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(3) Allowance for Doubtful Accounts**

In the first quarter of fiscal 2008 we established a general bad debt reserve for franchise receivables due to increases in days sales outstanding and a deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria. The reserve has been initially established at \$234,000 and will be adjusted each quarter based on past due receivable balances. The reserve is recorded as an increase to general and administrative expenses.

**(4) Public Relations and Marketing Development Fund and Restricted Cash**

In fiscal 2004, we established a system-wide Public Relations and Marketing Development Fund. Company-owned restaurants, in addition to franchise-operated restaurants on which franchise agreements were signed after December 17, 2003, are required to contribute a percentage of net sales, currently 1.0%, to a fund that is used for Public Relations and Marketing Development Fund efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflected the cash related to this fund in restricted cash and the liability is included in accounts payable on our consolidated balance sheets as of March 30, 2008 and December 30, 2007. As of March 30, 2008 and December 30, 2007, we had approximately \$1.2 million and \$2.4 million in this fund, respectively.

**(5) Credit Facility**

On July 31, 2006, the Company and certain of its subsidiaries (collectively known as the Borrower) entered into an amendment and restatement of an existing Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender). The Credit Agreement, which amended and restated an agreement previously entered into by the Company on January 28, 2005, increased the Company's existing revolving credit facility from \$10.0 million to \$20.0 million (the Facility). Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (2.25% at March 30, 2008) plus 0.5% or Wells Fargo's prime rate (5.25% at March 30, 2008). The applicable margin will depend on the Company's Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.75% to 2.50% for Euro Dollar Rate Loans and from -0.25% to +0.50% for Base Rate loans. Unused portions of the Facility will be subject to an unused Facility fee equal to either 0.25% or 0.375% of the unused portion, depending on the Company's Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 30, 2008, was 0.25%.

The Company expects to use borrowings under the Facility for general working capital purposes, as well as for the repurchase of shares under the Company's share repurchase authorization. Under the Facility, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants. We were in compliance with all covenants under the Facility as of March 30, 2008 and December 30, 2007.

In addition to changes in the aggregate loan amount and applicable interest rates, the Amended and Restated Credit Agreement provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding, reducing our availability for general corporate purposes and also allows for the termination of the Facility by the Borrower without penalty at any time after the second anniversary of the effective date. The maturity date for this Facility is July 31, 2011. We had \$12.5 million in borrowings under this Facility, and had \$500,000 in Letters of Credit as of March 30, 2008 as required by our fiscal 2005 self-

funded medical insurance policy. As of December 30, 2007 we had \$13.0 million in borrowings under this Facility and had \$500,000 in Letters of Credit as required for our fiscal 2005 self-funded medical insurance policy. The letters of credit reduced our borrowing capacity under the line as of March 30, 2008 and December 30, 2007.

On April 17, 2008 the company amended its credit agreement with Wells Fargo Bank. See footnote (10) Subsequent Events.

**(6) Stock Options, Performance Shares, Other Forms of Compensation, and Common Share Repurchases**Stock-based Compensation

We recognized stock-based compensation expense in our consolidated statements of operations for the first quarter of fiscal years 2008 and 2007, respectively, as follows:

<sup>(1)</sup> In December 2007, our Chief Executive Officer ceased employment with the Company. As a result, we adjusted our performance share expense under these programs and stock option expense in the fourth quarter of

fiscal 2007 to reflect the cancellation of these unearned grants. We hired a new Chief Executive Officer and his employment commenced on April 21, 2008, and at which time, performance share grants and a restricted stock unit grant was made. See footnote (10) Subsequent Events.

We have adopted a 1995 Stock Option and Compensation Plan, a 1997 Employee Stock Option Plan, a 1998 Director Stock Option Plan and a 2005 Stock Incentive Plan (the Plans), pursuant to which we may grant stock options, stock appreciation rights, restricted stock, performance shares, and other stock and cash awards to eligible participants. We have also granted stock options outside of the Plans prior to 1996 in limited situations, however, all of these grants have been previously exercised. Under the Plans, an aggregate of 232,000 shares of our Company's common stock remained unreserved and available for issuance at March 30, 2008. In general, the stock options we have issued under the Plans vest over a period of 3 to 5 years and expire 10 years from the date of grant. The 1995 Stock Option and Compensation Plan expired on December 29, 2005 and the 1997 Employee Stock Option Plan expired on June 24, 2007. Although incentives are no longer eligible for grant under these plans, each such plan will remain in effect until all outstanding incentives granted hereunder have either been satisfied or terminated. On June 10, 2008, the 1998 Director Stock Option Plan will expire. Thereafter, incentives will no longer be eligible for grant under such Plan.

Performance Shares

Since fiscal 2005, all stock incentive awards for employees of the Company (whom we refer to as Associates), including officers, have taken the form of performance shares. We have a program under which management and certain director-level Associates may be granted performance shares under the 2005 Stock Incentive Plan, subject to certain contingencies. Issuance of the shares underlying the performance share grants is contingent upon the Company achieving a specified minimum percentage of the cumulative earnings per share goals (as determined by the Compensation Committee) for each of the three fiscal years covered by the grant. Upon achieving the minimum percentage, and provided that the recipient remains an Associate during the entire three-year performance period, the Company will issue the recipient a percentage of the performance shares that is based upon the percentage of the cumulative earnings per share goals achieved. No portion of the shares will be issued if the specified percentage of earnings per share goals is achieved in any one or more fiscal years but not for the cumulative three-year period.

No recipient will have any rights as a shareholder based on the performance share grants unless and until the conditions have been satisfied and the shares have been issued to the recipient. In accordance with this program, we recognize as compensation expense, the value of these stock grants as they are earned in our consolidated statements of operations throughout the performance period.

During the first quarter of fiscal 2008, we issued 54,325 shares out of the 2005-2007 performance share program, representing the achievement of approximately 91% of the target payout for this program. Recipients elected to forfeit 19,276 of those shares to satisfy tax withholding obligations, resulting in a net issuance of 35,049 shares. As of March 30, 2008, we currently have three performance share programs in progress. All of these performance share awards qualify for equity-based treatment under Statement of Financial Accounting Standards ( SFAS ) No. 123R. Accordingly, we recognize compensation cost for these share-based awards based on their fair value, which is the closing stock price at the date of grant over the requisite service period (i.e. fixed treatment). The current status of our performance share programs as of March 30, 2008, is as follows:

(3) Based on 150% EPS goal achieved

For each of the three programs currently in progress, if the Company achieves at least 80% of the Cumulative EPS Goal, then each recipient will be entitled to receive a percentage of the Target number of Performance Shares granted that is equal to the percentage of the Cumulative EPS Goal achieved, up to 100%. If the Company achieves between 100% and 150% of the Cumulative EPS Goal, each recipient will be entitled to receive an additional percentage of the Target number of Performance Shares granted equal to twice the incremental percentage increase in the Cumulative EPS Goal over 100% (e.g., if the Company achieves 120% of the Cumulative EPS Goal, then the recipient will be entitled to receive 140% of his or her Target Performance Share amount).

**Deferred Stock Unit Plan**

We have an Executive Elective Deferred Stock Unit Plan (Deferred Stock Unit Plan), in which executives can elect to defer all or part of their annual incentive compensation or commissions, or their receipt of any compensation in the form of stock grants under the Company's equity incentive plans or otherwise, for a specified period of time. The amount of compensation that is deferred is converted into a number of stock units, as determined by the share price of our common stock on the effective date of the election. Following expiration of the deferral period, stock units representing cash deferrals are re-converted into cash and paid to the executive. In accordance with SFAS No. 123R, the Deferred Stock Unit Plan qualifies for liability treatment. Accordingly, we recognize compensation expense throughout the deferral period to the extent that the share price of our common stock increases, and reduce compensation expense throughout the deferral period to the extent that the share price of our common stock decreases (i.e. mark to market).

Several of our executives elected to defer a portion of their fiscal 2004 bonuses, the amount of which was determined on February 25, 2005, totaling approximately \$77,000, (of which approximately \$25,000 had been subsequently paid out), in accordance with the Deferred Stock Unit Plan. As a result of the increase in the share price of our common stock during the first quarter of fiscal 2006, we recognized approximately \$8,000 of compensation

expense related to these deferrals in our consolidated statement of operations for the first quarter ended April 2, 2006. These bonuses, including the original amount deferred and the amounts earned over the deferral period due to an increase in the stock price, were paid out during the first quarter of fiscal 2007.

Several of our executives elected to defer a portion of their 2005 bonuses, the amount of which was determined on February 22, 2006, totaling approximately \$56,000 (of which approximately \$9,000 had been subsequently paid out), in accordance with the Deferred Stock Unit Plan. We had recognized income of approximately \$2,000 related to these deferrals for the first quarter ended April 2, 2006. These bonuses, including the original amount deferred and the amounts earned over the deferral period, were paid out during the first quarter of fiscal 2007.

**(6) Stock Options, Performance Shares, Other Forms of Compensation, and Common Share Repurchases (continued)**

One of our executives elected to defer for a two-year period, a portion of such executive's fiscal 2006 bonus, the amount of which was determined on February 21, 2007, totaling approximately \$71,000, in accordance with the Deferred Stock Unit Plan discussed above. We recognized income of approximately \$2,000 related to this deferral in our consolidated statements of operations for the first quarter of fiscal 2007. Following the termination of executive's employment with the Company in December 2007, and in accordance with the Deferred Stock Unit Plan, amounts in respect of the deferral were paid out in February 2008.

**Board of Directors Compensation**

In February 2007, we awarded our independent board members shares of common stock for their service on our board for fiscal 2007. These shares were unrestricted upon issuance, but required repayment of the prorated portion or equivalent value thereof, in cash, in the event of a board member not fulfilling their term of service. In total, 25,500 shares were issued on February 21, 2007, on which date the price of our common stock at the close of market was \$18.74. The total compensation cost of approximately \$478,000 was reflected in general and administrative expenses in our consolidated statement of operations for fiscal 2007, equally by quarter.

In February 2008, we awarded our independent board members shares of common stock for their service on our board for fiscal 2008. These shares were unrestricted upon issuance, but require repayment of the prorated portion or equivalent value thereof, in cash, in the event of a board member not fulfilling their term of service. In total, 25,500 shares were issued on February 20, 2008, on which date the price of our common stock at the close of market was \$10.42. The total compensation cost of approximately \$266,000 was reflected in general and administrative expenses in our consolidated statements of operations for fiscal 2008, and will be spread over the fiscal year equally by quarter.

**Common Share Repurchases**

On May 9, 2006, our Board of Directors authorized a stock repurchase program that authorized the repurchase of up to 1.0 million shares of our common stock to be repurchased from time to time in both the open market or through privately negotiated transactions. As of April 1, 2007, we had repurchased approximately 676,800 shares under the program for approximately \$10.5 million at an average market price of \$15.48, excluding commissions. During the first quarter of fiscal 2007, we repurchased 65,400 of these shares under the program for approximately \$1.2 million at an average market price of \$18.08, excluding commissions. We completed this program in September 2007.

On September 27, 2007, our Board of Directors authorized another stock repurchase program that authorized the repurchase of up to 1.0 million shares of our common stock from time to time in both the open market or through privately negotiated transactions. As of March 30, 2008 we had repurchased 498,000 shares under this program for approximately \$7.1 million at an average market price per share of \$14.24, excluding commissions. During the first quarter of fiscal 2008, we repurchased 16,000 shares under the program for approximately \$156,000 at an average price per share of \$9.73.

**(7) Retirement Savings Plans**

**401(k) Plan**

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers employees meeting certain eligibility requirements. We match 50.0% of the employee's contribution up to 4.0% of their earnings. Employee contributions were approximately \$149,000 and \$125,000 for the first quarter of fiscal years 2008 and 2007, respectively. The employer match was \$46,000 and \$38,000 for the first quarter of fiscal years 2008 and 2007, respectively. There were no discretionary contributions to the Plan during the first quarter of fiscal years 2008 or 2007.

**Non-Qualified Deferred Compensation Plan**

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the Plan). Eligible participants are those employees who are at the director level and above and who are selected by the Company to participate in the Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Plan Administrator, and the Regulations promulgated by the IRS. The Company matches 50.0% of the first 4.0% contributed and currently pays a declared interest rate of 8.0% on balances outstanding. The Board of Directors administers the Plan and could change the rate or any other aspects of the Plan at any time.

Deferral periods are capped at the earlier of termination of employment or not less than three calendar years following the end of the applicable Plan Year. Extensions of the deferral period for a minimum of five years are allowed provided the election is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

The Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, any future payments would have no greater rights than that of an unsecured general creditor of the Company and they confer no legal rights for interest or claim on any assets of the Company. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 (ERISA), because the pension insurance provisions of ERISA do not apply to the Plan.

For the quarter ended March 30, 2008 and April 1, 2007, eligible participants contributed approximately \$32,000 and \$75,000 to the Plan, respectively, and the Company provided matching funds and interest of approximately \$23,000 and \$20,000, respectively.

**(9) Recent Accounting Pronouncements**

On December 4, 2007, the FASB issued FASB Statement No. 141(R), *Business Combinations* (SFAS 141(R)), and FASB Statement No. 160, *Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). These new standards will significantly change the accounting for and reporting for business combination transactions and noncontrolling (minority) interests in consolidated financial statements. SFAS 141(R) and SFAS 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. These standards will impact us if we complete an acquisition or obtain minority interests after the effective date.

On February 15, 2007, the FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS 159). This standard permits an entity to choose to measure many financial instruments and certain other items at fair value. The fair value option established by SFAS 159 permits all entities to choose to measure eligible items at fair value at specified election dates. SFAS 159 is effective for the Company as of December 31, 2007. The impact of adopting this pronouncement had no effect on our consolidated financial statements because we did not elect the fair value option for any financial assets or liabilities.

In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* (SFAS 157) which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value, and expands the related disclosure requirements. However, on February 12, 2008, the FASB issued FSP FAS 157-2 which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). This FSP partially defers the effective date of SFAS 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of this FSP. Effective for 2008, we have adopted SFAS 157 except as it applies to those nonfinancial assets and nonfinancial liabilities as noted in FSP FAS 157-2. The partial adoption of SFAS 157 did not have a material impact on our consolidated financial statements.

**(10) Subsequent Events**

**Amended Credit Agreement**

On April 17, 2008 the company amended its credit agreement with Wells Fargo Bank. The new agreement increases the maximum aggregate loan commitment from \$20.0 million to \$30.0 million, with an opportunity, subject to the company meeting identified covenants and elections, to increase the commitment to \$50.0 million. Approved loan commitment increases must be in minimum increments of \$5.0 million, and no more than two such increases may be requested during the term of the proposed Credit Agreement. The maturity date on the facility has been extended five years to April 17, 2013.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (2.25% at March 30, 2008) plus 0.5% or Wells Fargo's prime rate (5.25% at March 30, 2008). The applicable margin will depend on the Company's Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.00% to 2.00% for Euro Dollar Rate Loans and from -0.50% to +0.50% for Base Rate loans. Unused portions of the Facility will be subject to an unused Facility fee equal to either 0.25% or 0.375% of the unused portion, depending on the Company's Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 30, 2008, was 0.25%. An increase option exercise fee of 0.025% will apply to increased amounts between \$30.0 million and \$50.0 million.

Various financial covenants have been updated with new maximum target capital expenditures, cash flow ratios, and adjustment leverage ratios. In addition, capital expenditure limits now include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$20.0 million in aggregate during the term of the agreement). Additionally, a new financial covenant regarding a limit to franchise royalty receivables aged more than 30 days is applicable if a specified level of the adjusted leverage ratio is reached.

**New President and CEO Equity Compensation**

On April 21, 2008, Wilson L. Craft commenced employment with the Company serving as its President and Chief Executive Officer. Also on April 21, 2008, and pursuant to the agreement governing Mr. Craft's employment, the Company granted Mr. Craft 100,000 restricted stock units having an aggregate grant date fair value of \$925,000. These restricted stock units will vest in three equal annual installments on the three, four and five year anniversaries of the grant date provided that Mr. Craft remains employed by the Company through the applicable vesting date, and will vest in its entirety upon a change of control as defined in the employment agreement.

In accordance with FASB Statement No. 123R, the compensation expense for this grant will be recognized in equal quarterly installments as general and administrative expense in our consolidated statements of operations commencing in the second quarter of fiscal 2008 and continuing through the applicable service period, which expires in the second quarter of fiscal 2012. In addition, the Company granted Mr. Craft 33,100 performance shares under the Company's 2008-2010 Performance Share Program, subject to the same terms and conditions that apply to all grants made under that same program. The compensation expense for this grant of approximately \$306,000 based on the closing stock price on the date of grant April 21, 2008, and will be recognized in equal quarterly installments as general and administrative expense in our consolidated statements of operations for fiscal 2008 through fiscal 2010.

**Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**OVERVIEW**

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of March 30, 2008, there were 168 Famous Dave s restaurants operating in 35 states, including 45 company-owned restaurants and 123 franchise-operated restaurants. An additional 141 franchise restaurants were in various stages of development as of March 30, 2008.

***Fiscal Year***

Our fiscal year ends on the Sunday closest to December 31<sup>st</sup>. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. The fiscal years ending December 28, 2008 (fiscal 2008) and December 30, 2007 (fiscal 2007), are both 52 week fiscal years.

***Revenue***

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of area development fees, initial franchise fees, and continuing royalty payments. Our area development fee to secure the territory consists of a non-refundable payment equal to \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. Substantially all of these services which include, but are not limited to, conducting market and trade area analysis, a meeting with Famous Dave s Executive Team, and performing potential franchise background investigation, all of which are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Our initial franchise fee is typically \$40,000 per restaurant, of which \$5,000 is recognized immediately when a franchise agreement is signed, reflecting the commission earned and expenses incurred related to the sale. The remaining \$35,000 is included in deferred franchise fees and is recognized as revenue, when a franchisee has secured a site, meaning a lease has been executed or a property purchase agreement has been signed, at which time we have substantially performed all of our obligations. Franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. Currently, most new franchises pay us a royalty of 5% of their net sales. Licensing revenue includes royalties from a retail line of business, including sauces, seasonings, rubs, and marinades. Other revenue includes opening assistance and training we provide to our franchise partners. Costs and expenses associated with these services are included in general and administrative expense. Our measures of comparable sales represent net sales for restaurants open year-round for at least 24 and 18 months, respectively.

***Costs and Expenses***

Restaurant costs and expenses include food and beverage costs, operating payroll and employee benefits, occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. Certain of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and staff gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control are improved to levels similar to those at our more established restaurants.

**Table of Contents****FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****General and Administrative Expenses**

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, bonuses, Associate benefits, legal fees, accounting fees, consulting fees, travel, rent and general insurance are major items in this category. Additionally, we record expense for Managers In Training ( MIT s ) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services for which the revenue is included in other revenue and the expenses are included in general and administrative expenses.

***Total Revenue***

Total revenue of approximately \$33.7 million for the first quarter of fiscal 2008 increased approximately \$4.7 million or 16.2% over revenue of approximately \$29.0 million for the comparable quarter in fiscal 2007. This increase reflects a 14.2% increase in franchise royalty revenue and a 17.3% increase in company-owned restaurant sales.

- 16 -

---

**Table of Contents**

**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

***Restaurant Sales, net***

Restaurant sales for the first quarter of fiscal 2008 were \$29.2 million, compared to \$24.9 million for the same period in fiscal 2007, reflecting a 17.3% increase. This increase is largely the impact of opening five new company-owned restaurants since the first quarter of 2007, an approximate 3% weighted average impact of price increases that the company has taken since June 2007, and a comparable sales increase.

***Franchise-Related Revenue***

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.3 million for the first quarter of fiscal 2008, representing a 8.0% increase over the comparable period of 2007, primarily reflecting increased royalties. Royalty revenue, which is based on a percent of franchise-operated restaurant net sales, increased 14.2% reflecting the 18 net franchise restaurants that opened since the first quarter of fiscal 2007. There were 123 franchise-operated restaurants opened at March 30, 2008 compared to 104 at April 1, 2007.

***Licensing and Other Revenue***

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the first quarter of fiscal 2008, the licensing royalty revenue was approximately \$79,000 compared to approximately \$72,000 for the comparable period of fiscal 2007. Other revenue for the fiscal 2008 first quarter was approximately \$107,000 compared to \$26,000 for the comparable prior year quarter. The increase in other revenue is due to the opening of three restaurants during the first quarter of 2008 compared to only one restaurant opening in the first quarter of 2007. The amount of other revenue is expected to remain essentially flat for fiscal 2008 based on the level of opening assistance we may be required to provide during the remaining franchised openings planned for the latter half of fiscal 2008.

***Same Store Net Sales***

Beginning with the first quarter of 2008, we will be providing both 24 month and 18 month same store net sales information. We believe we have a longer honeymoon period than typical casual dining driven by high initial trial and broad reach when we open a restaurant. Accordingly, in the first quarter of fiscal 2008 we are using a 24 month comparable sales calculation, intended to provide a more appropriate measure of performance. It is our policy to include in our same store net sales base, restaurants that are open year round and have been open at least 18 months or 24 months, respectively. Same store net sales for company-owned restaurants open at least 24 months for the first quarter of fiscal 2008 increased 3.6%, compared to fiscal 2007's first quarter decrease of 0.9%. For the first quarter of fiscal 2008 there were 36 restaurants included in the company-owned 24 month comparable sales base and 37 for the first quarter of fiscal 2007. The favorable impact of price increases, our advertising initiatives, and the success of our LTOs, contributed to the profitable comparable store sales. There was some offset effect of the 1% comparable sales negative impact from the shift of Easter from the second quarter of 2007 to the first quarter of 2008. In addition, unseasonably cold weather in March caused a decline in customer traffic. There were also several caterings that took place in the first quarter of 2007 that were not repeated.

Same store net sales for company-owned restaurants open at least 18 months for the first quarter of fiscal 2008 increased 3.2%, compared to fiscal 2007's first quarter decrease of 0.9%. For the first quarter of fiscal 2008, there were 39 restaurants included in the company-owned 18 month comparable sales base and 37 for the first quarter of fiscal 2007.

Same store net sales on a 24 month basis for franchise-operated restaurants for the first quarter of 2008 decreased 3.2% in both the first quarter of fiscal 2008 and 2007. For the first quarter of 2008 and 2007 there

**Table of Contents****FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

were 78 and 56 restaurants, respectively, included in the franchise-operated 24 month comparable sales base. Much of the decline in the first quarter of fiscal 2008 reflects the economic challenges being faced in certain franchise markets. Four states representing 22 franchise-operated restaurants accounted for almost 60% of the decline for franchise comparable sales.

Same store net sales on an 18 month basis for franchise-operated restaurants for the first quarter of 2008 decreased 4.8%, compared to a decrease of 5.1% for the first quarter of fiscal 2007. For the first quarter of 2008 and 2007 there were 89 and 70 restaurants, respectively, included in the franchise-operated 18 month comparable sales base.

***Average Weekly Net Sales and Operating Weeks***

The following table shows company-owned and franchise-operated average weekly net sales and company-owned and franchise-operated operating weeks for the first quarter of fiscal 2008 and fiscal 2007:

**Operating Weeks:**

Company-Owned	579	533
Franchise-Operated	1,538	1,326

We continue to demonstrate our category leadership in off-premise sales. Catering and TO GO accounted for approximately 29.2% of 2008's first quarter sales compared with approximately 29.9% for the first quarter of 2007,

with the decline in the percentage reflecting the loss of several, significant, weather-related catering orders from the first quarter of 2007 that were not repeated in 2008.

***Food and Beverage Costs***

Food and beverage costs for the first three months of fiscal 2008 were approximately \$8.9 million or 30.6% of net restaurant sales, compared to approximately \$7.6 million or 30.5% of net restaurant sales for the first three months of fiscal 2007. As a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were 9.5% compared to 10.0% for the first quarter of fiscal years 2008 and 2007, respectively.

- 18 -

---

**Table of Contents****FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

We anticipate that food costs, as a percent of net restaurant sales, will be 30-40 basis points higher over the first half of fiscal 2008 than the prior year comparable period. Our annual pork contract extends through December 2008 and resulted in a 1.0% price increase for fiscal 2008. Our poultry contract pricing negotiated in January 2008 resulted in an increase of 12% through August 2008. Our brisket contract, which runs from January to July 2008, is essentially flat for the first half of fiscal 2008 as compared to prior year. We expect some favorability in brisket pricing during the last half of fiscal 2008. Our hamburger contract, which runs from January to December 2008, is essentially flat to 2007. We continue to watch the brisket and chicken markets closely. For the remainder of the year, we expect to minimize the impact from these higher costs through rebates from food and beverage vendors that had previously gone to the National Ad fund, of which approximately \$112,000 was recorded in the first quarter of 2008. We will also offer LTOs with higher margins, in addition to taking a price increase in June.

***Labor and Benefits Costs***

Labor and benefits costs for the three months ended March 30, 2008 were approximately \$9.2 million or 31.4% of net restaurant sales, compared to approximately \$7.5 million or 30.0% of net restaurant sales for the three months ended April 1, 2007. The increase in the percentage from the prior year reflects a prior year worker's compensation insurance credit adjustment that was approximately \$105,000 higher than the current year adjustment. Additionally, unseasonably cold weather in many of our core markets led to increased labor costs as a percentage of sales due to unexpected declines in guest traffic. Also, higher labor costs due to inefficiencies during the first 12-14 weeks of operation were associated with opening five new company-owned restaurants since September 2007. For 2008, we expect labor and benefit costs as a percentage of net restaurant sales to increase 30-40 basis points over 2007 levels primarily as a result of higher labor costs for our 2008 openings, in addition to increases in the federal, and various state minimum wage rates.

***Operating Expenses***

Operating expenses for the first quarter of fiscal 2008 were approximately \$7.5 million or 25.6% of net restaurant sales, compared to operating expenses of approximately \$6.2 million or 24.8% of net restaurant sales for the first quarter of fiscal 2007. The increase in restaurant level operating expenses as a percentage of restaurant sales for the first quarter of fiscal 2008 is primarily due to higher advertising costs resulting from an increase in the number of markets in which we advertised. In addition, unseasonably cold weather in many of our core markets led to higher utility costs. During fiscal 2008, operating expenses as a percentage of net restaurant sales are expected to be relatively flat from the percentage for fiscal 2007. Fiscal 2008 advertising expenses are expected to be approximately 3.5% of net restaurant sales, which include 1% to be contributed to the national advertising fund.

***Depreciation and Amortization***

Depreciation and amortization expense for the first quarter of 2008 was approximately \$1.5 million or 4.3% of total revenue, compared to the first quarter of 2007 at approximately \$1.2 million or 4.0% of total revenue. Depreciation and amortization increased year-over-year due to capital invested toward the opening of five new restaurants opened since September 2007 and the result of the reclassification of assets previously held for sale to assets held and used. During fiscal 2008, depreciation and amortization is expected to increase modestly from fiscal 2007 levels due to expected capital expenditures of approximately \$17.5 million for new and existing company-owned restaurants and other infrastructure projects.

***Pre-opening Expenses***

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. We had pre-opening expenses of approximately \$254,000 in the first quarter of 2008

**Table of Contents****FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

and approximately \$6,000 in the first quarter of 2007. We plan to open up to six company-owned restaurants in fiscal 2008 with total pre-opening costs estimated at approximately \$275,000 per restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening which will vary based on lease terms.

***General and Administrative Expenses***

General and administrative expenses for the first quarter of 2008 were approximately \$4.7 million or 13.8% of total revenue, compared to approximately \$4.1 million or 14.2% of total revenue for the first quarter of fiscal 2007. General and administrative expenses as a percent of total revenue, excluding stock-based compensation, were 13.0% for the first quarter of 2008 and 12.4% for the first quarter of 2007. General and administrative expenses for the first quarter of 2008 included approximately \$200,000 in executive search fees. We also elected to establish a bad debt reserve related to franchise receivables totaling approximately \$234,000 in the first quarter of 2008. Including the recent grant of restricted stock units and performance shares to our new President and Chief Executive Officer, we are expecting stock-based compensation to be approximately \$1.3 million in fiscal 2008, as follows (in thousands):

Performance Shares	Restricted Stock Units	Board of Directors Shares	Unvested Stock Options	Total
\$800	\$ 130	\$ 265	\$ 85	\$1,280

During fiscal 2008, we expect general and administrative expenses, as a percentage of total revenue, to remain flat to the percentage for the prior year comparable period.

***Loss on Early Extinguishment of Debt***

During the first quarter of fiscal 2007, we repaid approximately \$1.0 million in notes payable related to our Tulsa, Oklahoma company-owned restaurant early which resulted in an approximate \$12,000 non-cash charge to write-off deferred financing fees.

***Interest Expense***

Interest expense was approximately \$511,000 or 1.5% of total revenue for the first three months of fiscal 2008, compared to approximately \$363,000 or 1.3% of total revenue for the comparable first three months of fiscal 2007. This was due to a higher average balance on our revolver. This category includes interest expense for notes payable, financing lease obligations, our line of credit, and a company match and interest for deferrals made under our non-qualified deferred compensation plan. For fiscal 2008, we expect interest expense to be higher than fiscal 2007 levels due to interest on our line of credit which had a balance of \$12.5 million as of March 30, 2008.

***Interest Income***

Interest income was approximately \$58,000 and \$76,000 for the first three months of fiscal 2008 and fiscal 2007, respectively. Interest income reflects interest received on short-term cash and cash equivalent balances. We expect fiscal 2008 interest income to decrease compared to fiscal 2007 levels due to lower cash balances, with cash being utilized for construction of up to six company-owned restaurants, our share buy-back program, and other general capital needs.

***Provision for Income Taxes***

For the first quarter of 2008, we recorded an estimated provision for income taxes of approximately \$450,000 or 35% of income before income taxes, compared to a tax provision of approximately \$720,000, or

**Table of Contents**

**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

approximately 34% of income before income taxes, for the first quarter of 2007. We estimate a tax provision of 34% for fiscal 2008.

***Basic and Diluted Net Income Per Common Share***

Net income for the three months ended March 30, 2008 was approximately \$835,000 or \$0.09 per basic and diluted share on approximately 9,611,000 weighted average basic shares outstanding and 9,773,000 weighted average diluted shares outstanding. Net income for the three months ended April 1, 2007 was approximately \$1.4 million or \$0.14 per basic share on approximately 10,130,000 weighted average basic shares outstanding and \$0.13 per diluted share on approximately 10,492,000 weighted average diluted shares outstanding.

**Financial Condition, Liquidity and Capital Resources**

During the first quarter of 2008, our balance of unrestricted cash and cash equivalents was approximately \$2.0 million, compared to the fiscal 2007 year-end balance of approximately \$1.5 million.

Our quick ratio, which measures our immediate short-term liquidity, was 0.25 at March 30, 2008 and 0.51 at April 1, 2007. The quick ratio is computed by adding unrestricted cash and cash equivalents with accounts receivable, net and dividing by total current liabilities less restricted marketing fund liabilities. The change in our quick ratio was primarily due to borrowings on our line of credit used primarily for capital expenditures.

Net cash provided by operations for the first quarter of 2008 was approximately \$3.6 million. Cash provided during the first quarter of fiscal 2008 was primarily from depreciation and amortization of approximately \$1.5 million, net income of approximately \$835,000, a decline in restricted cash of approximately \$1.2 million and a decrease in accounts receivable of \$865,000. In addition, there were increases in stock based compensation of \$281,000. These net increases were partially offset by an approximate \$1.1 million decrease in accounts payable.

Net cash provided by operations for the first quarter of 2007 was approximately \$4.2 million. Cash provided during the first quarter of fiscal 2007 was primarily from net income of approximately \$1.4 million, depreciation and amortization of approximately \$1.2 million, an increase in accounts payable of \$902,000, utilization of our deferred tax asset of approximately \$595,000, and stock-based compensation of approximately \$540,000. These increases were particularly offset by an increase in restricted cash of \$619,000 and a decrease in accrued compensation and benefits of \$610,000.

Net cash used for investing activities was approximately \$2.3 million for the first quarter of fiscal 2008 and \$1.3 million for the first quarter of fiscal 2007. During the first quarter of 2008, we used approximately \$2.4 million for capital expenditures primarily related to the construction of our new restaurants. During the first quarter of fiscal 2007, we used approximately \$1.4 million for capital expenditures primarily related to the construction of our new restaurants. In fiscal 2008, we expect capital expenditures to be approximately \$17.5 million, which will consist of costs related to the construction of up to six new company-owned restaurants, information technology infrastructure projects, and normal capital expenditures for existing restaurants.

Net cash used for financing activities was approximately \$764,000 in the first quarter of fiscal 2008 and approximately \$1.1 million for the first quarter of fiscal 2007. During the first quarter of 2008, we had draws of \$5.5 million on our line of credit and had repayments of \$6.0 million. In addition, we repaid approximately \$93,000 of debt and repurchased 16,000 of our shares for approximately \$156,000, including commissions. During the first quarter of fiscal 2007, we made payments on long-term debt of approximately \$1.1 million, borrowed \$3.5 million and repaid \$2.5 million on our line of credit. In addition, we received

proceeds from stock options exercised and tax benefits from stock options exercised of approximately \$161,000. Also during the first quarter of fiscal 2007, we repurchased 65,400 shares of our common stock under our share repurchase program for approximately \$1.2 million.

On April 17, 2008, the Company and certain of its subsidiaries (collectively known as the Borrower ) entered into an amendment and restatement of an existing Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender ). The Credit Agreement, which amended and restated an agreement previously entered into by the company on July 31, 2006, increased the Company s existing revolving credit facility from \$20.0 million to \$30.0 million (the Facility ) with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million. The maturity date on the facility has been extended five years to April 17, 2013.

Principal amounts outstanding under the facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (2.25% at March 30, 2008) plus 0.5% or Wells Fargo s prime rate (5.25% at March 30, 2008). The applicable margin will depend on the Company s Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.00% to 2.00% for Euro Dollar Rate Loans and from -0.50% to +0.50% for Base Rate Loans. Unused portions of the Facility will be subject to an unused Facility fee which will equal to either 0.25% or 0.375% of the unused portion, depending on the Company s Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 30, 2008, was 0.25%. An increase option exercise fee will apply to increased amounts between \$30.0 and \$50.0 million.

We expect to use any borrowings under the Credit Agreement for general working capital purchases, as well as the repurchase of shares under our share repurchase authorization. Under the Facility, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants. Various financial covenants have been updated with new maximum target capital expenditures, cash flow ratios, and adjustment leverage ratios. In addition, capital expenditure limits now include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$20.0 in aggregate during the term of the agreement). Additionally, a new financial covenant regarding a limit to franchise royalty receivables aged more than 30 days is applicable if a specified level of the adjusted leverage ratio is reached. We were in compliance with all covenants under the Facility as of March 30, 2008 and December 30, 2007.

The Credit Agreement currently provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding reducing our availability for general corporate purchases, and also allows for the termination of the Facility by the Borrower without penalty at any time after the second anniversary of the effective date. We had \$12.5 million in borrowings under this Facility and had \$500,000 in Letters of Credit required by our fiscal 2005 self-funded, medical insurance policy, which reduced our borrowing capacity under the Facility, as of March 30, 2008. We had \$1.0 million in borrowings under this Facility and had \$500,000 in Letters of Credit as of April 1, 2007, as required by our fiscal 2005 self-funded medical insurance policy.

We anticipate that all restaurant development and expansion will be funded primarily through currently held cash and cash equivalents, cash flow generated from operations, and from sources such as our expanded credit facility. We expect capital expenditures of approximately \$17.5 million in 2008 for the construction of up to six new restaurants, corporate infrastructure, and normal capital expenditures for existing restaurants.

**Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements.

**Contractual Obligations**

See Notes 7, 8, and 9 to our Consolidated Financial Statements in our Fiscal 2007 Annual Report on Form 10-K for the details of our contractual obligations.

Under the agreements governing our long-term debt obligations, we are subject to two main financial covenants. We must maintain a 1.5 to 1.0 fixed charge coverage ratio and a 3.5 to 1.0 leverage ratio during each fiscal year. As of March 30, 2008 and December 30, 2007, we were in compliance with both of the covenants.

**Critical Accounting Policies**

Our significant accounting policies are described in Note One to the consolidated financial statements included in our Annual Report for the year ended December 30, 2007. The accounting policies used in preparing our interim 2008 consolidated financial statements are the same as those described in our Annual Report.

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our Company s financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestrictive cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company s unrestrictive cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments or derivative commodity instruments in our cash and cash equivalents. The total outstanding long-term debt of our Company as of March 30, 2008 was approximately \$11.6 million, including financing lease obligations. All of the outstanding long-term debt is subject to fixed interest rates.

On April 17, 2008 the Company amended its credit agreement with Wells Fargo Bank. The new agreement increases the maximum aggregate loan commitment from \$20.0 million to \$30.0 million, with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million. Approved loan commitment increases must be in minimum increments of \$5.0 million, and no more than two such increases may be requested during the term of the proposed Credit Agreement. The maturity date on the facility has been extended five years to April 17, 2013.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (2.25% at March 30, 2008) plus 0.5% or Wells Fargo s prime rate (5.25% at March 30, 2008). The applicable margin will depend on the Company s Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.00% to 2.00% for Euro Dollar Rate Loans and from -0.50% to +0.50% for Base Rate loans. Unused portions of the Facility will be subject to an unused Facility fee equal to either 0.25% or 0.375% of the unused portion, depending on the Company s Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 30, 2008, was 0.25%. An increase option exercise fee of 0.025% will apply to increased amounts between \$30.0 million and \$50.0 million.

Various financial covenants have been updated with new maximum target capital expenditures, cash flow ratios, and adjustment leverage ratios. In addition, capital expenditure limits now include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$20.0 million in aggregate during the term of the agreement). Additionally, a new financial covenant regarding a limit to franchise royalty receivables aged more than 30 days is applicable if a specified level of the adjusted leverage ratio is reached.

Some of the products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-price purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources, which helps to control food commodity risks. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.

**Item 4. CONTROLS AND PROCEDURES**

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal control over financial reporting or in other factors that could significantly affect our internal control over financial reporting subsequent to the end of the period covered by this report.

From time to time, we are involved in various legal actions arising in the ordinary course of business. In the opinion of our management, the ultimate dispositions of these matters will not have a material adverse effect on our consolidated financial position and results of operations. Currently, there are no significant legal matters pending.

**Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS***Purchases of Equity Securities by the Issuer*

On September 27, 2007, our Board of Directors adopted a stock repurchase plan that authorized the repurchase of up to an additional 1.0 million shares of our common stock. The plan authorized us to purchase shares from time-to-time in both the open market or through privately negotiated transactions. We expect to fund repurchases from the Company's available working capital and through sources such as the Company's credit facility.

As of March 30, 2008, we had repurchased 498,456 shares under this program for approximately \$7.1 million, or an average market price per share of \$14.24, excluding commissions. All share repurchases under this plan were made pursuant to open-market transactions under the publicly announced repurchase program approved by our Board of Directors, and funded from our working capital.

The following table includes information about our share repurchases for the first quarter ended March 30, 2008.
